Keri Keri Wind Farm – RtS and Amendment Report

Dear Emma-Rose

Thank you for the opportunity to provide advice on Keri Keri Wind Farm – Response to Submissions (RtS) and Amendment Report.

The NSW Department of Primary Industries and Regional Development – Agriculture and Biosecurity (the Department) collaborates and partners with our stakeholders to protect and enhance the productive and sustainable use and resilience of agricultural resources and the environment.

The Department has reviewed the Response to Submissions, Amendment Report and amended Agricultural Impact Assessment for how they have considered and addressed the potential impact of the proposed development on agricultural land and agricultural production in the locality.

The Department notes that the reports consider that there will be reduced agricultural impacts due to the reduced number of WTGs and therefore reduced temporary and permanent footprints. According to the reports mitigation and management measures are considered adequate.

Should you require clarification on any of the information contained in this response, please do not hesitate to contact me by email at landuse.ag@dpird.nsw.gov.au

Sincerely

L Parker
