Request for Advice on SEARs - SSD-10448 Aspect Industrial Estate

Dear William,

Fire & Rescue NSW (FRNSW) acknowledge the receipt of your email on the 7th April 2020, requesting input into the preparation of the Secretary's Environmental Assessment Requirements (SEARs) for Aspect Industrial Estate (SSD-10448).

FRNSW have reviewed the Scoping Report that was prepared in support of the development and will not be providing comment at this time as there is currently insufficient information available regarding the fire safety and emergency response management aspects of the project.

We request that we be given the opportunity to review and provide comment once approvals have been granted and the project has progressed such that there is more relevant detailed information available.

As additional details become available Fire & Rescue NSW requests to be consulted with respect to the proposed fire and life safety systems and their configuration at the project's preliminary and final design phases.

While there is currently no requirement for a fire safety study, FRNSW may request one be undertaken at a later stage should information be provided such it is deemed that the development poses unique challenges to the response to and management of an incident.

If you have any further queries regarding this matter, please contact the Fire Safety Branch on 9742 7434 quoting your reference number BFS 20/1129.

Regards
Brendan
