Dear Sir/Madam

BULLI SEAM OPERATIONS MODIFICATION NO. 7 – APPIN NORTH EMPLACEMENT AREA (MP08_0150)

Wollongong City Council (WCC) notes that the proposed modification primarily relates to the Appin North Coal Wash Emplacement Area with a proposed change to the design and height of the coal wash emplacement area (stage 4).

Therefore, WCC raises no objection to the proposal, but recommends that Wollondilly Shire Council be consulted given that the emplacement area is within their local government area.

Please contact me should you require further information.
