

Please note that from 1 July 2026, requests relating to **State Significant Development (SSD), State Significant Infrastructure (SSI), Concurrence and Referral matters, and Planning Referral projects must be submitted through the Development Coordination Authority (DCA)**, which is now the central point of contact for planning matters involving NSW Government agencies.

For information on submission requirements, please visit the website [Development Coordination Authority](#) or contact the DCA via email at dca.enquiries@dphi.nsw.gov.au.

The DCA coordinates state agency advice and approvals as part of the development assessment process and manages most planning referrals and consultation matters that were previously referred directly to individual agencies.

As a result, you will need to resubmit your request to the DCA.
