Dear Tanvir

**Project: Aberdare East Chitter and Tailings Reclamation Project - MOD 4 Bulk Sample Trial Delivery (MP06\_0236-Mod-4)**  
**Stage: Advice on Modification Report (MRT)**  
**Development Application: MP 06\_0236**

I refer to your correspondence dated 11 November 2021 inviting the Department of Regional NSW – Mining, Exploration & Geoscience (MEG) to provide comments on the Aberdare East Chitter and Tailings Reclamation Project - MOD 4 Bulk Sample Trial Delivery (MP06\_0236-Mod-4) (the Project), submitted by Premier Energy Resources Pty Ltd (the Proponent).

MEG has reviewed the information supplied and raises no issues regarding the Aberdare East Chitter and Tailings Reclamation Project - MOD 4 Bulk Sample Trial Delivery (MP06\_0236-Mod-4) at this time. This advice is limited to the bulk sample of up to 840 tonnes carbonaceous material (coal fines) only. Results from testing will verify if the product is suitable for alternative uses. Royalty calculation is not applicable for this assessment, due to the use of the bulk sample for testing purposes.

This advice should be considered in conjunction with any advice provided by the NSW Resources Regulator.

MEG notes that the proponent has provided additional supporting information in relation to a potential later stage rehabilitation project for this site. If a further development application or modification is sought, MEG will need to assess the resource and economic considerations and this will be subject to any applicable royalties, determined at that time.

For further advice concerning this matter, please contact Adam Banister, Senior Advisor Industry Development on 02 4063 6534 or [mining.concierge@regional.nsw.gov.au](mailto:mining.concierge@regional.nsw.gov.au).

Yours sincerely

Scott Anson
