**RE: Eraring Battery Energy Storage System – Parts Lot 10 and 11 DP 1050120**

Thank you for the invitation on 18 November 2021 for advice on the Eraring Battery Energy Storage System at Parts Lot 10 and 11 DP 1050120.

The land is located within a declared mine subsidence district. Development within a district requires approval from Subsidence Advisory NSW (SA NSW).

The site overlies a mining lease held by Centennial Mandalong Pty Ltd. SA NSW has received recent advice from Centennial that mining under the site is unlikely.

Our records indicate the subject area is not undermined or within the zone of influence of any historical workings.

SA NSW have no objection to the proposal. Future development applications will be assessed in accordance with our current policies.

If you would like more information, please contact Subsidence Advisory NSW on 49084300 or [subsidedevelopment@customerservice.nsw.gov.au](mailto:subsidedevelopment@customerservice.nsw.gov.au).

Yours sincerely

**Shane McDonald**
