Attention: James McDonough

SSD 11591659 – EIS – 279 DEEP CREEK ROAD LIMEBURNERS CREEK – HARD ROCK QUARRY

I refer to the request by the Department of Planning, Industry and Environment (DPIE) dated 18 November 2021 seeking input from Transport for NSW (TfNSW) to the Environmental Impact Statement (EIS) for the abovementioned development proposal.

TfNSW key interests are the safety and efficiency of the transport network, the needs of our customers and the integration of land use and transport in accordance with the *Future Transport Strategy 2056*.

Pacific Highway (HW10) is a classified State road and Bucketts Way (MR90) is a Regional road. Council is the roads authority for both roads and all other public roads in the area, in accordance with Section 7 of the *Roads Act 1993*.

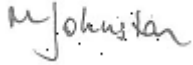

TfNSW has reviewed the information provided and raises no objection to or requirements for the proposed development as it is considered there will be no significant impact on the nearby classified (State) road network.

Advice to DPIE

- TfNSW considers that Bucketts Way, as a classified Regional road, is the responsibility of Council. As such the proposed intersection treatment at the entry to the development is for the assessment and consideration of Mid Coast Council.
- DPIE should consider together with Mid Coast Council, the additional safety risk of vehicles being pushed closer to existing trees created by the CHR and widening / clearing in the shoulder area. Additionally, it is recommended that truck turning warning signage on the approaches and safety barriers on the eastern side of Bucketts Way be provided.

On DPIE's determination of this matter, please forward a copy of the Notice of Determination to development.north@transport.nsw.gov.au. Should you require further information please contact Masa Kimura, Development Services Case Officer, on 02 4908 7688 or 0407 707 999 by emailing development.north@transport.nsw.gov.au.

Yours sincerely
