No Comment – Ashton Coal Project, DA 309-11-2001-I Mod 11, Submissions Report

Dear Ms Clibborn

Thank you for the request for advice from Public Authority Consultation (PAE-36000436), requesting input from the NSW Environment Protection Authority (**EPA**) on the Submissions Report for the proposed Ashton Coal Project Modification (DA 309-11-2001-i Mod 11).

On 8 December 2021 the EPA stated it has no recommended conditions to provide in response to this application.

The EPA has reviewed the report titled 'Ashton-Ravensworth Underground Mine Integration Modification Submissions Report', report number 01116905 and remains satisfied the appropriate limits, controls and monitoring measures can be implemented through the licence variation process. The EPA has no further comments to provide on this project.

If you have any questions about this request, please contact Michael Howat on 4908 6819 or via email at michael.howat@epa.nsw.gov.au.

Yours sincerely
