Dear Gabrielle,

**Western Coal Services Modification 4 – Water Transfer and Management System,
Castlereagh Highway Lidsdale**

I refer to your email received 8 February 2022 in regard to the Western Coal Services Project State Significant Development (SSD 5579), Modification 4. The modification seeks approval to change the existing water management system at the Springvale Coal Services Site to facilitate the transfer of water between Western Coal Services and other operations, as well as proposing to improve the quality of water discharged to Wangcol Creek.

Council considers the Environmental Assessment adequately highlights the relevant issues, and has no objection to the project subject to Council's original conditions remaining on the consent.

Please do not hesitate to contact Miss Lauren Stevens who is available between 8:15am and 10:30am Monday to Friday on (02) 63549999, in Council's Environment & Development Department should you have any queries in relation to this matter.

Yours sincerely
