Dear Ms Murray,

Re. Comment on draft conditions - approval for the MOD 6 – New Tailing Storage Facility.

I refer to your request of 15 February 2022 for advice regarding the approval for the MOD 6 – New Tailing Storage Facility at Rasp Mine. The Resources Regulator has reviewed the request and the proposed draft conditions are satisfactory and do not require any amendments.

Regulatory requirements if approved

The proponent will be required to comply with rehabilitation requirements under the mining authorisation when undertaking works associated with the proposal.

The Resources Regulator may undertake assessments of the mine operators' proposed mining activities under the *Work Health and Safety (Mines and Petroleum Sites) Act 2013* and Regulation, as well as other WHS regulatory obligations.

Background

The Resources Regulator undertakes risk-based compliance and enforcement activities in relation to obligations under the *Mining Act 1992*. This includes undertaking assessment and compliance activities in relation to mine rehabilitation activities and determination of security deposits.

The Resources Regulator is responsible for ensuring the mine operators' compliance with the WHS legislation, in particular the effective management of risks associated with the principal hazards as specified in the *Work Health and Safety (Mines and Petroleum Sites) Regulation 2014*.
