Dear Mr Heath

Upper South Creek Advanced Water Recycling Centre – EIS Amendment Report (SSI-8609189)

Thank you for your Major Projects Planning Portal referral dated 23 March 2022, requesting WaterNSW's advice in relation to the Amendment Report (AR) for the proposed Upper South Creek Advanced Water Recycling Centre.

As previously advised, WaterNSW owns and manages land and several pieces of critical water supply infrastructure that could be impacted by this proposal, however it is noted that no WaterNSW lands or assets will be impacted by the proposal changes as outlined in the AR.

WaterNSW has already provided advice on recommended conditions in our response to the EIS (our ref: D2021/120274) and the comments and recommended conditions remain current. WaterNSW would appreciate our commentary being addressed within any further response to submissions by the proponent and that the conditions are considered and incorporated into any determination that falls in favour of the proponent.

If you have any questions regarding this letter, please contact Justine Clarke at justine.clarke@watnsw.com.au.

Yours sincerely
