Dear Nathan,

Thank you for your referral to Heritage NSW on 22 March 2022, in relation to a modification application and report for the Upper South Creek Advanced Water Recycling Centre (SSI-8609189). Heritage NSW has reviewed the *Upper South Creek Advanced Water Recycling Centre - Amendment Report Technical Note -Assessment of Impact on Aboriginal Cultural Heritage Amendment Report* and notes the following.

Heritage NSW understands that Kelleher Nightingale Consulting (KNC) has undertaken an appraisal of Aboriginal cultural heritage in relation to minor amendments to the projects pipeline corridor and proposed impact area (24 November 2021) included in the amendment report for the Upper South Creek Advanced Water Recycling Centre. The pipeline corridor adjustments relate to the proposed impact area shown in the Upper South Creek Advanced Water Recycling Centre Aboriginal Cultural Heritage Assessment Report (KNC 2021).

Heritage NSW notes that the amendment report pipeline corridor modifications have resulted in new impacts to Aboriginal heritage sites, two areas exhibit a minor impact increase, and none of the impact increases on Aboriginal heritage sites result in a change of significance, the increased impacts is consistent with the previous level of impact and do not result in an overall increased impact on Aboriginal heritage despite the increase in physical area.

Heritage NSW supports the conclusion and recommendations provided in the advice in relation to Aboriginal cultural heritage and has no additional comments or concerns in relation to the modification proceeding. Please contact me directly should you require any additional information. I shall upload this email to the MPP this evening.

Kind regards
Nicole Davis
