Dear Nestor,

Heritage NSW has reviewed the *Uungula Wind Farm (SSD 6687), Modification 1 Report, Wind Turbine Generator Removal and Access Track Alterations, 17 March 2022*, with respect to Aboriginal cultural heritage. Heritage NSW notes that the modification has been designed to ensure that on-ground impacts are reduced, which has been achieved by realigning access areas, and reducing the overall footprint of the Project. Heritage NSW understands that this modification will result in a net benefit to cultural heritage values through the avoidance and conservation of a previously identified Aboriginal object locale. Based on this information, Heritage NSW has no additional comments or concerns in relation to the proposed modification proceeding.

Kind Regards
Nicole Davis
