Department of Planning and Environment
RE: SSD 34991713
Locked Bag 5022
Parramatta NSW 2124

Attention: Thomas Bertwistle

**ENVIRONMENTAL IMPACT STATEMENT (EIS) – SSD 34991713
LIGHT HORSE INTERCHANGE WAREHOUSE FACILITY (LOT 7)**

Dear Thomas,

Transport for NSW (TfNSW) is in receipt of the Department of Planning and Environment's (DPE) correspondence dated 25 July 2022, relevant to SSD 34991713 and, as referred for comment.

Following review of the submitted information, TfNSW notes that Lot 7 forms part of a Concept Plan, which is currently part of a modification application – SSD 9667 (MOD 1). Accordingly, TfNSW advises that any consent for works sought under this SSD 34991713 is subject to determination of SSD 9667 (MOD 1).

Additionally, TfNSW notes the subject site is bounded by estate roads. These are local roads that intersect Ferrers Road which is identified as an unclassified regional road and, under the care and control of Council. Accordingly, Council is the relevant road authority in this instance and TfNSW recommends the matter be addressed to the satisfaction of Council.

Any queries relevant to the subject proposal, please contact Sandhya Davidson via development.sydney@transport.nsw.gov.au

Sincerely,

A blue ink signature of Muriel Maher.
