**Subject: Request for agency advice on Response to Submissions – Adaptive reuse of the Royal Hall of Industries MOD 1 - staging and minor amendments (SSD-9726-Mod-1)**

Dear Ms Yuan

Thank you for the email of 10 October 2022 requesting advice on the Response to Submissions (RtS) for the modification application for the Adaptive reuse of the Royal Hall of Industries (SSD-9726-Mod-1).

EHG has reviewed the RtS and notes that:

- microbats are being excluded from roosting in the roof during construction, but will be permitted to return after construction is complete, and
- the Microbat Management Plan has been updated to reflect the changes in design proposed by SSD-9726-Mod-1.

EHG considers that the matters raised in our previous advice have been adequately addressed.

EHG requests that it not been given a consultation role in the conditions of consent for this project unless EHG has agreed to the role and the condition.

If you have any queries please contact Dana Alderson, Senior Project Officer Planning via [dana.alderson@environment.nsw.gov.au](mailto:dana.alderson@environment.nsw.gov.au).

Yours sincerely,

Susan Harrison  
Senior Team Leader Planning
