**MP 08_0223-Mod-4: Modification – transportation of coal by road (200,000 tpa)
from Clarence Colliery until 31 December 2023**

09 November 2022

Dear Polina,

Thank you for referring MP08_0223 (Mod 4) via the NSW Major Projects Planning Portal on 13 October 2022 inviting comment from Transport for NSW (TfNSW).

TfNSW has reviewed the Modification Report, prepared by James Bailey & Associates, dated 21 September 2022 prepared for the prospective Clarence Colliery & Lidsdale Siding Temporary Coal Transport From review of the current and historic DA documentation, TfNSW notes the following key information.

- The Lidsdale Siding operates under MP 08_0223 and is approved to accept up to 6.3 Mtpa of coal from Centennial's Western Coal Services via overland conveyor and/or train.
- The proposal seeks to temporary transport up to 200,000 tonnes per annum (tpa) of coal from Clarence by truck to Lidsdale Siding via the Castlereagh Highway and Main Street until the end of 2023.

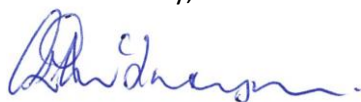

TfNSW notes a separate modification has been lodged with Department of Planning by Ivanhoe Coal to temporarily increase the maximum quantity of coal permitted to be transported by road until December 2023.

TfNSW is supportive of the proposal subject to the following conditions being met.

- The increase haulage by road is to cease on or before 31 December 2023.
- The Applicant must ensure all loaded vehicles leaving the site are covered and cleaned of materials that may fall on the road.
- Pursuant to clause 2.22 of *State Environmental Planning Policy (Resource & Energy) 2021* the proponent is to prepare and implement a code of conduct relating to the transport of materials on public roads

Please forward a copy of the Department's determination to TfNSW at development.west@transport.nsw.gov.au when it is sent to the applicant. If you wish to discuss this matter further, please contact me on 0417 431 982.

Yours faithfully,

Andrew McIntyre
