

Sally Munk
Principal Planning Officer
DPE- Planning

C- Major Projects Portal

Woodlawn Advanced Energy Recovery Centre (SSD-21184278)

Dear Ms Munk

Thank you for your correspondence of 21 October 2022 and the opportunity to provide comment on the above proposal. The extension is also appreciated.

The NSW Department of Primary Industries (DPI) Agriculture collaborates and partners with our stakeholders to protect and enhance the productive and sustainable use and resilience of agricultural resources and the environment.

DPI Agriculture has reviewed the documents provided in relation to the above proposal and considered potential impacts to agricultural land and agricultural production in relation to the proposal.

It is noted that the proposed energy recovery centre is in an industrial land zoning with company managed agricultural land forming a buffer to private lands in the area.

It is considered the proposal has demonstrated that there will not have an adverse impact on any agricultural land use or agricultural production and therefore NSW DPI have no comments or additional requirements for this proposal.

Should you require clarification on any of the information contained in this response, please do not hesitate to contact me on 0427 949 987 or by email at landuse.ag@dpi.nsw.gov.au.

Sincerely

A handwritten signature in black ink that reads "Mary Kovac".

Mary Kovac
Agricultural Land Use Planning Officer
