**RE: Review of Environmental Impact Statement (SSD-9255) – New England Solar Farm
MOD 2, New England Highway and Barleyfields Road, Uralla**

I refer to the request by the Department of Planning and Environment (DPE) dated 17 November 2022 seeking input from Transport for NSW (TfNSW) to Modification 2 for the above-mentioned State Significant Development.

TfNSW key interests are the safety and efficiency of the transport network, the needs of our customers and the integration of land use and transport in accordance with the *Future Transport Strategy*.

TfNSW has reviewed the Modification Report prepared by EMM and dated October 2022. It is understood that the modification be to amend project boundary and development footprint and increase the project's storage capacity.

TfNSW has reviewed the amended application and supporting documentation submitted and is satisfied that the proposed modification has adequately addressed the anticipated traffic impacts on the State road network.

Should you require further information please contact Kate Leonard, Development Services Case Officer, on 1300 207 783 or by emailing development.north@transport.nsw.gov.au.

Yours faithfully,

Leisa Sedger
