ADVICE RESPONSE Re: Burrendong Wind Farm

Stage: Advice on Environmental Impact Statement (EIS)

Development Application: SSD-8950984

Dear Natasha,

I refer to your correspondence dated 14 November 2023 inviting the Department of Regional NSW – Mining, Exploration and Geoscience (MEG) (including the Resources Regulator) to provide comments on the Burrendong Wind Farm (the Project) submitted by Burrendong Wind Farm Pty Ltd (the Proponent).

MEG has reviewed the information supplied in relation to this Project and notes that the Project interacts with numerous exploration and mining titles. However, the Proponent has not supplied records of consultation with all exploration and mining title holders in the EIS, as required under the Secretary's Environmental Assessment Requirements (SEARs) issued on 30 September 2022.

MEG will continue to consider and comment on issues arising from consultation with title holders and provide further advice to the Department of Planning and Environment (DPE) to ensure consultation with title holders is adequately addressed.

For further assistance on this matter, please contact Sarah Maiorana, Project Officer, Industry Advisory & Mining Concierge service - Industry Development unit on 02 4063 6860 or mining.concierge@regional.nsw.gov.au.

Sincerely,

Scott Anson
