Texas Solar Farm

The Department of Planning, Housing and Infrastructure – Crown Lands have reviewed the proposal.

No Crown land or roads in the vicinity are affected by the proposal, however a section of Sandy Creek Crown waterway is in the project area and the proponent may be required to complete an Ad Medium Filum Aquae search to determine possible centre thread presumptive title of the waterway bed, should the project require crossing the creek.

If the proponent requires further information, or has any questions, please contact Eowyn Lacey, Natural Resource Officer in Crown Lands, on 02 6770 3127 or at eowyn.lacey@crownland.nsw.gov.au.

Yours sincerely
