Attention: Megan Ramsdale

Gara Battery Energy Storage System (SSD-71680710)

Dear Ms Ramsdale

Thank you for your correspondence via the Major Projects Portal and the opportunity to provide comments on the draft SEARs for the above proposal.

NSW Department of Primary Industries (DPI) Agriculture collaborates with our stakeholders to protect and enhance the productive and sustainable use and resilience of agricultural resources and the environment.

DPI Agriculture has reviewed the submitted documentation concerning the above proposal. We understand that the site is zoned RU1 Primary Production, is within the New England Renewable Energy Zone and will have a development area of 14 hectares.

We note and support the commitment to undertake a Land Use Conflict Risk Assessment. The SEARs document should however be amended to *'the Department of Primary Industries' Land Use Conflict Risk Assessment Guide'*. It is also recommended that the decommissioning and site rehabilitation should include a commitment to remove all infrastructure above and below ground, to a depth of 500mm. We have included a list of resources in Attachment A.

Should you require clarification on any of the information contained in this response, please do not hesitate to contact me by email at landuse.ag@dpi.nsw.gov.au.

Sincerely

A handwritten signature in black ink that reads 'Helen Willis'.

Helen Willis

Agricultural Land Use Planning Officer
Soils and Water | Agricultural Land Use Planning
New England and North West Region
