PARRAMATTA NSW 2124

Dear Nick,

Re: Advice on Environmental Impact Statement (EIS) - THRUMSTER WASTEWATER SCHEME – 433 FERNBANK ROAD, FERNBANK CREEK (SSI-56980459)

Fire and Rescue NSW (FRNSW) acknowledge correspondence received on the 5 August 2024, requesting advice on the EIS for THRUMSTER WASTEWATER SCHEME – 433 FERNBANK ROAD, FERNBANK CREEK (SSI-56980459). FRNSW have reviewed the EIS with particular focus to Section 19, Hazards and Risks, along with the Preliminary Hazards Analysis (PHA)).

It is deemed that the proposal has limited scope and application in regard to special hazards or special problems of firefighting. FRNSW submit no comments or recommendations for consideration, nor any requirements beyond that specified by applicable legislation.

While there is currently no requirement for a Fire Safety Study, FRNSW may recommend one be undertaken at a later stage should information be provided such that the development is deemed to pose special problems of firefighting or special hazards exist that require additional fire safety and management measures.

For further information please contact the Operational Liaison and Special Hazards Unit, referencing FRNSW file number BFS24/4821. Please ensure that all correspondence in relation to this matter is submitted electronically to firesafety@fire.nsw.gov.au.

Yours sincerely,

A handwritten signature in black ink, appearing to be "James O'Carroll", written over a horizontal line.

Superintendent James O'Carroll
Manager
Operational Liaison and Special Hazards Unit
