Advice on Environmental Impact Statement – State Significant Development

Proposal: Taronga Zoo Sky Safari

Major Project reference: SSD-46807958

Received: 24 September 2024

Dear Ms Nowland,

Thank you for your referral seeking advice on the above State Significant Development proposal.

It is understood that the applicant is seeking consent for redevelopment of the former Sky Safari at Taronga Zoo. In preparing this advice Heritage NSW has reviewed the following documents:

- Relevant sections of the Environmental Impact Statement: Taronga Zoo Sky Safari – prepared by Urbis Ltd, dated 2 September 2024.
- Appendix Z: Aboriginal Cultural Heritage Assessment Report: Taronga Zoo Sky Safari – prepared by Urbis Ltd, dated 16 July 2024.

The Aboriginal Cultural Heritage Assessment Report (ACHAR) has been prepared with reference to the relevant guidelines as required by the Secretary's Environmental Assessment Requirements (SEARs). The ACHAR outlines that the assessment area is of nil-low Aboriginal archaeological potential due to the high to extreme levels of disturbance associated with the original Sky Safari infrastructure, the clearance of vegetation, the construction and demolition of zoo facilities, the establishment of pathways, and the introduction of services to facilitate zoo operations. No natural soil profiles were encountered during geotechnical investigations within the assessment area and this result is used to support the assessment of low Aboriginal archaeological potential. The ACHAR concludes that no Aboriginal objects or Aboriginal cultural heritage values will be impacted by the proposal. Heritage NSW agrees with the proposed management measures and recommendations

(Section 9 of the ACHAR). Heritage NSW has provided recommendations in relation to Draft Conditions of Consent, as included in Attachment A.

If you have any questions about this correspondence, please contact Marika Low, Senior Assessments Officer at Heritage NSW on (02) 9873 8500 or heritagemailbox@environment.nsw.gov.au

Yours sincerely,

Nicole Davis
