ADVICE RESPONSE: Mallee Wind Farm
Stage: Environmental Impact Statement
Development Application: SSD-53293710

Dear David

I refer to your correspondence dated 11 November 2024 inviting the Department of Primary Industries and Regional Development - NSW Resources to provide comments on the Mallee Wind Farm (Project) submitted by Spark Renewables Pty Limited (the Proponent).

NSW Resources has reviewed the information supplied and notes that several authorities under the *Mining Act 1992* overlap with the Project area; Assessment Lease (AL) 24, and Exploration Licences (EL) EL 9380, EL 9530 and EL 9604.

It is noted that the holders of these authorities have been engaged by the Proponent regarding the potential impacts of the Project on their exploration activities. Ongoing consultation with the holders of these authorities is recommended to identify and address concerns if any arise.

NSW Resources further advises the Proponent to actively monitor the MinView map viewer at <https://minview.geoscience.nsw.gov.au> for mining title changes that may interact with this Project. NSW Resources can assist with title holder contact details if required.

For further advice on this matter, please contact Elisa Paull, A/Senior Advisory Officer, Industry Advisory and Mining Concierge unit - Industry Development branch on 02 4063 6860 or mining.concierge@regional.nsw.gov.au.

Sincerely

A handwritten signature in black ink that reads "G. Carney". The signature is written in a cursive, flowing style.

Giselle Carney
