Lucas Heights Resource Recovery Park (LHRRP) Western Expansion – Request for SEARs – (SSD-78269209)

Dear Samantha,

Thank you for your Major Projects Planning Portal referral dated 22 November 2024 requesting WaterNSW's advice in relation to the above SEARs. It is understood that the Proposal is to extend the LHRRP landfill to the west of the approved landfill footprint. The Proposal also includes the realignment of Mill Creek, a revised landscape plan, relocations of leachate and stormwater assets and associated pumping and treatment infrastructure.

WaterNSW has reviewed the Scoping Report and the draft SEARs, and has no specific comments on the draft SEARs. We request that the proponent when preparing the EIS:

- Identify all WaterNSW water monitoring assets within and nearby to the project site.
- Assess the potential impact of the project on these assets including WaterNSW's ability to access the sites on a regular basis.
- Propose measures to mitigate the impacts.

WaterNSW requests the opportunity to review and comment on the EIS in due course.

WaterNSW requests that the Department continues to notify us of all development that may impact on our assets, infrastructure or land, by emailing Environmental.Assessments@waternsw.com.au.

If you have any questions regarding this letter, please contact Geraint Breese at Geraint.breese@waternsw.com.au.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Alison Kniha", with a long horizontal stroke extending to the right.
