Dear Ms Munk,

**RUSHES CREEK MOD-6 – STAGE 2 RECONFIGURATION & WATER MGT (SSD-7704-MOD-6)**

Ref: *ja/SL/PN42130*

I refer to your correspondence received on 3 June 2025 requesting Council's comments on the Modification Application for the Rushes Creek Poultry Farm state significant development.

Development application DA2024-0171 (PAN-387941) for the Construction of Two (2) Dams was approved on 28 August 2024. Council understands that a separate development application for the two dams, rather than a modification to SSD-7704, was based on consultation between SLR Consulting and the (former) Department of Planning and Environment. Council has no objections to the two dams being used to support the water security of the Rushes Creek Poultry Farm.

Council has no other comments on the modification.

Should you require any further clarification about the matters raised in this correspondence, please contact Council's Senior Development Assessment Planner, Jessica Allen, on the below details.

Yours faithfully,

Sam Lobsey  
**Manager, Development**
