**Subject:** Birriwa Solar Farm

Dear Madam/Sir

The Department of Planning, Housing and Infrastructure – Crown Lands has reviewed the Birrawa Solar Farm Modification Report.

The additional areas added to the project footprint do not contain Crown land, roads or waterways. However, Crown roads adjoin the added Lots 11 and 40 DP750755 to the project site.

While no direct impact is anticipated, it is recommended that appropriate measures are taken to ensure no encroachment or unintended impacts occur on the adjoining Crown roads.

It should also be noted that Modification report Page 161 (Appendix B – Detailed statutory compliance table) refers to the *Crown Lands Act 1989* which is incorrect, that is repealed legislation. The correct legislation is *Crown Land Management Act 2016*.

If the proponent requires further information, or has any questions, please contact, Karen Hocking in Crown Lands, at [dubbo.crownlands@crownland.nsw.gov.au](mailto:dubbo.crownlands@crownland.nsw.gov.au) or on 02 6883 3332.

Yours sincerely

Jacky Wiblin,

**Group Leader, Property Management**

Crown Lands and Public Spaces
