NSW Department of Planning, Housing and Infrastructure
Major Projects

Dear Sir/madam,

(MP07_0018-Mod-12) (Broken Hill City) – Rasp Mine

Reference is made to the abovementioned matter.

Council acknowledges the information and documents provided in support of this Modification application.

Council notes that the Modification report has outlined that the proposal relates to the extension of underground mining operations at Rasp Mine into the ML Blocks 13, 14 and 15. It is anticipated that the modification will not change the approved extraction rate, processing rate, other operating functions, or project approval lapse date.

Council wishes to advise that it has no objection to the Modification proposal. It has considered in particular that the proposal will have no impact on visual amenity, that the operations will continue in accordance with the existing approved Traffic Management Plan and that it is anticipated there will be minimal/no heritage impact.

Council considers that the continued and ongoing development of the resource at Rasp Mine will provide direct and indirect economic and social benefit to the community of Broken Hill through expected job security for its employees, contractors and subsequent benefits to the local economy through income and expenditure.

For any further enquiries, please contact the undersigned.

Yours faithfully,

TRACEY STEPHENS
