Dear Dave Auster,

I refer to your request for advice sent on 17 October 2025 to the NSW Department of Climate Change, Energy, the Environment and Water (DCCEEW) Water Group about the above matter.

NSW DCCEEW Water Group has reviewed the Environmental Impact Statement and is satisfied with the information provided. It is noted water take from aquifer interference activities as part of excavation to prepare the site was referred to in the Groundwater Impact Assessment (Appendix X). However, it is understood these activities have been approved under a previous development application (DA24/0294). DCCEEW Water has no further comment.
