Advice on Environmental Impact Statement – State Significant Development

Proposal: Aussie Skips Recycling - Bellfrog St Site upgrades

Major Project reference: SSD-67497708

Received: 25 November 2025

Dear Emma,

Thank you for your referral seeking advice on the above State Significant Development proposal. Heritage NSW understands the proposal involves the upgrades to their existing waste facility at 13 Bellfrog Street, Greenacre, where they propose to increase operations and expand activities. The project will involve no changes to the hardstand or any earth works. Plant equipment to be installed on the existing hardstands and will involve no ground disturbance.

In preparing this advice Heritage NSW has reviewed the following documents:

- Relevant sections of the Environmental Impact Statement - prepared by 4 Pillars Environmental Consulting dated 3 November 2025
- Appendix 11: Heritage Impacts Assessment - prepared by 4 Pillars Environmental Consulting, dated October 2025

Following the review of the above documents, Heritage NSW supports the conclusions of the Heritage Impacts Assessment Report, and the report adequately addresses the Secretary's Environmental Assessment Requirements (SEARs) for the project.

If you have any questions about this correspondence, please contact Paul Houston Senior Aboriginal Assessment Officer at Heritage NSW on (02) 9873 8500 or heritagemailbox@environment.nsw.gov.au

Yours sincerely,

Alison Lamond
