

16 November 2018

Ms Carolyn McNally
Secretary
Department of Planning and Environment
GPO Box 39
SYDNEY NSW 2001

Dear Ms McNally

Sydney Gateway State Significant Infrastructure Application

Roads and Maritime Services has determined the Sydney Gateway road project is a project to which Division 5.2 of the *Environmental Planning and Assessment Act 1979* (EP&A Act) applies. The project falls under Schedule 3 of State Environmental Planning Policy (State and Regional Development) 2011.

Pursuant to section 5.14 of the EP&A Act, Roads and Maritime is seeking the Minister for Planning's approval for the Sydney Gateway road project.

The application form, including a State significant infrastructure (SSI) application and scoping report has been submitted via the Department of Planning and Environment website. The SSI application scoping report includes site details, a project description, permissibility and strategic planning details, a preliminary environmental assessment, justification for the proposal, consultation information and the capital investment value of the project. I trust this information will assist in the formulation of environmental assessment requirements for the project.

Roads and Maritime would be pleased to provide further information on the Sydney Gateway road project as required. In this regard, Fraser Leishman may be contacted on 0429 130 347 or by email: Fraser.Leishman@rms.nsw.gov.au. Your assistance in progressing the assessment of this important proposal is greatly appreciated.

Yours sincerely
