Dear Mr Hutcheson

Menangle Quarry (PMA-13043292)
Menangle Quarry-

I refer to your correspondence concerning a proposed modification to the Menangle Quarry.

The Department has reviewed the proposed approach to preparing a modification application. The Department requests the modification report addresses potential impacts arising from replacing the conveyer to truck movements and any associated changes to the areas impacted by the quarry. In particular, the Department notes that the assessment should consider changes within the existing project boundary as well as any impacts occurring outside of the approved disturbance area.

Your next step will be to lodge your modification application through your dashboard on the major projects website (<http://www.planningportal.nsw.gov.au/major-projects>).

If your proposal is likely to have a significant impact on matters of National Environmental Significance, it will require an approval under the Commonwealth *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act).

This approval would be in addition to any approvals required under NSW legislation and it is your responsibility to contact the Commonwealth Department of Agriculture, Water and Environment to determine if an approval under the EPBC Act is required (<http://www.environment.gov.au> or 6274 1111).

If you have any questions, please contact Joel Herbert, who can be contacted on 8289 6614 or joel.herbert@planning.nsw.gov.au.

Yours sincerely,

Matthew Spratt
Director
Resource Assessments (Coal & Quarries)
