Dear Emily

RE: Preliminary Modification Request – MOD 2

We are writing on behalf of Mirvac Projects Pty Ltd. We are intending to submit a modification application that seeks to amend SSD 8449 as it relates to Bays 5-15 Locomotive Workshop, South Eveleigh.

The purpose of the modification is to seek approval to modify the wording within Condition D6. Amendments are proposed to the construction hours for rock breaking, rock hammering, sheeting piling, piling and the like.

The modification application will provide sound justification and assessment of the impacts of the proposed amendments.

We do not consider a scoping meeting is required prior to the lodgement of the modification application, and I have discussed this matter briefly with Brendon on Friday 29 March 2019, however should you wish to discuss this matter further, please don't hesitate to contact me on 0423066002.

We therefore request that you update your system to allow submission of the proposed modification application.

Yours sincerely,

Claire Burdett
Associate Director
