Subject: UNSW G25 Education Building

Thank you for providing the opportunity to provide comments on the response to submission for State Significant Development Application for the UNSW G25 Education Building (SSD-74670005).

The proposed development falls under Part E2 (Randwick Education and Health Specialised Centre) of the Randwick Development Control Plan 2013 (DCP).

Council notes the responses to the Randwick City Council submission, and has provided further comment to the five key issues below:

Built form

1. Council supports the further analysis undertaken of the solar impacts to neighbouring properties provided in the amended documentation. However, the metric used to justify the solar impacts is not acceptable. The ADG applies to the design of apartment buildings and is not appropriate to guide amenity standards for dwelling houses. The 70% rule within the ADG for provision of solar access to dwellings applies to a single development and cannot apply to a whole residential street in the same way. Randwick DCP Part C1 - Low Density Residential, section 5.1 Solar Access and Overshadowing sets the appropriate standards. Council's overshadowing concerns therefore remain for the proposed development.
2. In relation to the response provided to address Council's concerns regarding wind tunnelling, whilst Council's preference remains for a podium to address any wind tunnel impacts, Council accepts that the proposed measures (awnings and vegetation) will to a degree assist in reducing some of the wind tunnelling impacts.

Transport, traffic and pedestrian impacts

3. Council sees the completion of the High Street shared path as a priority and would like to see an increase in bicycle path connections as a result of the development. The proposed increase of end-of-trip facilities is supported.
4. Council continues to have serious concerns regarding the loss of parking and the impact on the parking in the surrounding streets.

Development Contributions

5. Council maintains its position on Section 7.12 levies. The proposed development is not exempt from levies payable under Randwick Council's Section 7.12 Development Contributions Plan 2024. Additionally, Crown developments are not automatically exempt from payments under Council's Development Contribution Plan. The proposal represents a large-scale redevelopment of an educational building (G25) that is intended to support and expand new learning environments and a café. The proposal will result in a significant increase in floor area beyond the existing surface car park. Accordingly, there will be a significant increase in intensity of land use that will result in increased demand upon surrounding infrastructure, services and facilities in the area.

I trust that Council's comments will be taken into consideration in the final detail design of this proposal. If you would like to discuss any of these matters further, please don't hesitate to contact David Ongkili, Coordinator Strategic Planning on 9093 6793.

Yours sincerely,

David Appleby
Manager Strategic Planning (Acting)
