Dear Mr Singh

Sikh Grammar School Rouse Hill (SSD-9472)
Request for Additional Information

I refer to Response to Submission (RTS) and Supplementary RTS for the Sikh Grammar School Rouse Hill (SSD-9472). After careful consideration, the Department is requesting that you provide the following additional information:

1. Swept paths

- (a) Swept paths are to be submitted for the largest anticipated vehicle (i.e. heavy-rigid vehicles or alternate size as proposed) that would access the site during construction and operation.
- (b) Swept paths are to be also submitted demonstrating a waste collection vehicle can enter and exit the site in forward direction for the purpose of waste collection from the designated waste collection points within the site.

2. Construction vehicle movement

Provide details of anticipated peak hour and daily construction (including excavation) vehicle movements to and from the site, for each of the construction stages. This should include the approximate number of trucks that would likely travel on the surround road network during the various construction phases.

3. Staging plan

It is noted that throughout all the submitted documents (EIS report, RTS report and supplementary RTS) the construction timeframe is stated as 10 years. However, the staging plans in the Architectural Design Report (pages 59- 69 in Appendix 4 of the RTS) reflects 24-year timeframe. These staging plans are to be revised to reflect a 10-year construction timeframe so it's consistent with the submitted documents.

You are requested to provide the information, or notification that the information will not be provided, to the Department by Friday 11 December 2020. If you are unable to provide the requested information within this timeframe, you are requested to provide, and commit to, a timeframe detailing the provision of this information.

If you have any questions, please contact Prity Cleary, who can be contacted on 0282896795/ at prity.cleary@planning.nsw.gov.au.

Yours sincerely,
