Hi Karl,

Thanks for your time this morning on the phone.

As discussed, we understand there was a public submission made in support of the SSDA. This submission was received from a company named 'Geosentinel Australia Pty Ltd'. The submission contained marketing materials for 'Washbox' technology, which (based on the submission) is a product used to recycle washwater generated by construction trades.

Because this submission appeared to be a business development / marketing exercise and made no comment relevant to the SSDA, we deliberately ignored it. We now understand DPIE want the Applicant to formally respond to this submission.

On this – we contend that the submission (while made in support of the SSDA) is not relevant to the matters for consideration under section 4.15 of the EP&A Act. Construction impacts will be managed in accordance with the Preliminary Construction Management Plan submitted with the SSDA and appropriate conditions of consent.

Please do not hesitate to contact me if you require anything further.

Kind regards,

EDWARD GREEN
