Dear Charissa

RE: Biodiversity Management Plan

We refer to correspondence on the 20 May 2021 regarding consultation in relation to the Vickery Coal Mine Biodiversity Management Plan. Following recommendation from the Department, a further opportunity was provided to North West Local Land Services as per Table 1 within the correspondence dated 20 May 2021. Please refer to a copy of the communication provided within the uploaded file.

We confirm no formal feedback has been received following the extension of time.

We look forward to the Department finalising their review and approval of the Biodiversity Management Plan at its earliest convenience.

If there are any questions in relation to the above please do not hesitate to contact me.

Yours sincerely
