

Mr Andrew Kosciuszko
Advisor-Planning and Approvals
Jerrara Power Pty Ltd
Suite 7.01 Level 7
6A Glen Street
Milsons Point NSW 2061

Dear Mr Kosciuszko

**Jerrara Power Energy from Waste Facility (SSD-22879238)
Request for Additional Information**

I refer to your request for the Planning Secretary's Environmental Assessment Requirements (SEARs) for the Jerrara Power Energy from Waste Facility (SSD-22879238). The Department has reviewed the Scoping Report and sought input from key State government agencies and Goulburn Mulwaree Council (Council) on the key issues and requirements for the Environmental Impact Statement (EIS) for the proposal.

Based on the advice received from the agencies and Council and the Department's review of the Scoping Report, the Department requests the following additional information be provided prior to the issuing of SEARs:

- details and supporting plans showing the potential alignment of the overhead powerline/easement connecting the facility to the main grid substation at Goulburn
- details of permissibility of the proposed overhead powerline/easement
- an outline of how the EIS will address the recommendations of the Office of the Chief Scientist's Energy from Waste Report, including the requirement for a Life Cycle Assessment and a detailed waste input sampling and monitoring plan
- further details on the temporary construction workforce accommodation facility – including location and approximate scale of this facility.

Please provide the information or notify us that the information will not be provided, by **Wednesday 4 August 2021**. If you cannot meet this deadline, please provide and commit to an alternative timeframe for providing this information.

If you have any questions, please contact Sally Munk, Principal Planner, on 9274 6431 or via email at sally.munk@planning.nsw.gov.au.

Yours sincerely,

22 July 2021

Chris Ritchie
Director
Industry Assessments

As delegate of the Planning Secretary
