

Mr Graeme Williams  
Project Manager  
Building 31  
University of Wollongong  
Wollongong NSW 2522

23/09/2019

Dear Mr Williams

**University of Wollongong Western Building - MOD 2  
Revised stormwater system design and location of replacement trees (SSD-8596-Mod-2)  
Request for Additional Information**

I refer to the documentation submitted to support the modification application for the University of Wollongong Western Building – MOD 2 – Revised stormwater system design and location of replacement trees (SSD-8596-Mod-2). After careful consideration, the Department is requesting that you provide additional information.

You are requested to submit the following additional information:

- clarification on the location of the required 57 replacement trees and five palms – these trees are currently approved to be planted within the area covered by the approved Landscape Masterplan. Condition D15 was introduced in MOD 1 as the revised loading dock results in three of the trees (adjacent to the driveway (to the east) and next to the bike storage area) no longer being viable.
- correspondence from Sydney Water supporting the proposed stormwater design and the need for the redesign.

You are requested to provide the information, or notification that the information will not be provided, to the Department by **Monday, 30 September 2019**. If you are unable to provide the requested information within this timeframe, you are requested to provide, and commit to, a timeframe detailing the provision of this information.

If you have any questions, please contact Rebecca Sommer, who can be contacted on 9274 6184 or at [Rebecca.Sommer@planning.nsw.gov.au](mailto:Rebecca.Sommer@planning.nsw.gov.au).

Yours sincerely,

A handwritten signature in black ink that reads 'David Gibson'.
