Dear Joel

**Re: Response to Request for Information (dated 20 May 2020) to Support a Proposed Modification to Haerses Road Quarry (DA 165-7-2005)**

In response to the EPA's request for additional information, please find enclosed a detailed response from ERM Australia Pty Ltd which addresses the matters raised with respect to the air quality assessment.

In summary, the requested dust inventory has been supplied and it is confirmed no additional assumptions or changes were made to the inventory other than updating the truck movements and length of sealed road.

ERM have also provided an analysis of the effect of the amenity bund and demonstrate this has limited impact on the overall air emissions of the proposed modification which would not alter the conclusions of the Air Quality Impact Assessment.

We trust this information meets with your current requirements. Please do not hesitate to contact the undersigned on 1300 793 267 should you require clarification or further information.

Yours sincerely

Alex Irwin
