Dear Tania,

RE: Expansion of the Museums Discovery Centre SSD-10472 Modification 2

As requested, Taronga confirms that the proposed increased planting for the Museum Discovery Centre will be over and above the existing Taronga Conservation Society koala planting program. This planting will not replace any planting losses due to previous drought or flooding events. Taronga also confirms that planting of 600 trees will result in a net increase of trees on the Western Sydney University - Richmond Campus.

Regards,

Elio Bombonato
Manager Wildlife Operations
Taronga Conservation Society Australia.
