**Subject: Request for Additional Information for Section 4.55(1A) Modification Application, Western Sydney University Bankstown City Campus (SSD-9831-Mod-2)**

Dear Ms Jones

I refer to proposed modification 2 of the approval for Western Sydney University Bankstown City Campus detailing amendments to the approved signage zone (SSD-9831-Mod-2). After careful consideration the Department is requesting that you provide the following additional information:

- the signage zone increase will result in additional light spill and illumination. Please provide comment justifying that the sign will still comply with *SEPP (Industry and Employment)* schedule 5 and does not result in adverse impacts to neighbouring properties.
- the submitted modification report does not provide adequate justification as to why the signage zone increase is required. Please provide comments justifying why the increase in signage size is required and why it is appropriate in the context.

You are requested to provide the information to the Department by 3 May 2022. If you cannot meet this deadline please advise the Department via the NSW planning portal.

If you have any enquiries, please contact Tom Stanton at 02 9585 6411 or via email [tom.stanton@dpie.nsw.gov.au](mailto:tom.stanton@dpie.nsw.gov.au).

Yours sincerely

Nathan Stringer  
**Acting Team Leader**  
**Social Infrastructure**
