## 1. Introduction

## 1.1 Background

The Western Harbour Tunnel and Warringah Freeway Upgrade (WHTWFU) is an important road connection across the Sydney Harbour, linking North Sydney to Rozelle and Lilyfield. The project comprises two main components:

- A new crossing of Sydney Harbour involving twin tolled motorway tunnels connecting the M4-M5 Link at Rozelle and the Warringah Freeway at North Sydney (the Western Harbour Tunnel)
- Upgrade and integration work along the existing Warringah Freeway, including infrastructure required for connections to the Beaches Link and Gore Hill Freeway Connection project. Reconfiguration works as part of the Warringah Freeway Upgrade would optimise the road corridor and improve the performance of the Sydney Harbour Tunnel, the Sydney Harbour Bridge, and the Western Harbour Tunnel.

Due to its importance, the WHTWFU project was declared to be Critical State Significant Infrastructure (CSSI) by the Minister for Planning and Public Space on 9 November 2020. On 21 January 2021, the Department of Planning, Industry and Environment (DPIE) approved the construction and operation of the WHTWFU project (SSI 8863).

A detailed description of the project is provided in Chapter 5 of the Western Harbour Tunnel and Warringah Freeway Upgrade Environment Impact Statement (EIS).

The WHTWFU project will be delivered in numerous stages:

- Stage 1 Early and enabling works
  - Stage 1A Critical utility installation, relocation, and protection (CUT)
  - Stage 1B Cammeray Golf Course adjustment works (CGC)
  - Stage 1C Massey to Amherst noise wall (M2A)
  - Stage 1D WHT construction power and utilities (WHTCP)
  - Stage 1E Maritime Heritage relocation of historic vessels M.V. Cape Don and Baragoola (MH)
- Stage 2 Warringah Freeway Upgrade (WFU) project
- Stage 3 Western Harbour Tunnel (WHT) project.

Further detail on each stage is provided in the WHTWFU project Staging Report.

This Stage 2 Construction Parking and Access Strategy (CPAS) applies only to the Cammeray Golf Course Site Establishment works, the construction stages of the Warringah Freeway Upgrade precinct works as described in the TAN and relevant Construction Support Site (CSS) are shown in Figure 1. This report will be updated in preparation of further support sites becoming operational.

#### WARRINGAH FREEWAY UPGRADE

Figure 1: Construction Precincts of the Warringah Freeway Upgrade project

## 1.2 Project description

The key activities of the Stage 2 Warringah Freeway Upgrade (WFU) works are listed in Table 2.

Table 2: Stage 2 Warringah Freeway Upgrade works

Stage 2 WFU	Key activities
Site preparation works	<ul> <li>Clearing vegetation</li> <li>Installation of temporary fencing and hoarding</li> <li>Installation of environmental controls (erosion and sedimentation controls)</li> </ul>
Establishment and operation of ancillary facilities	<ul> <li>Operation at High Street south (WFU 2); High Street north (WFU 3); Arthu Street east (WFU 4); Berry Street east (WFU 5); Ridge Street east (WFU 6); Cammeray Golf Course (WFU 8); Rosalind Street (WFU 9) and Northern Hub (NH 1)</li> </ul>
Utility installation, relocation, and protection	<ul> <li>Underbore and service relocation from Ernest Street through Cammeray Avenue to Rosalind Street</li> <li>ITS node construction (move from Ernest Street to Rosalind Street)</li> <li>Northbound verge ITS trenching works (between Ch2800 – Ch3050)</li> </ul>
Construction works	<ul> <li>Construction of retaining wall structure</li> <li>Construction of new Ridge Street Pedestrian Bridge</li> <li>Bridge modifications and widening works to the Mount Street bridge and Falcon Street bridge, also the entry and exit ramps</li> <li>Construction of the bridge over Alfred Street exit ramp</li> <li>High Street bridge widening</li> <li>Bulk earthworks for the widening of the Warringah Freeway into the Cammeray Golf Course</li> <li>Construction of the Mount Street (North Street) and Ernest Street (Cammeray) underpasses</li> <li>Construction of the inner carriageway</li> <li>Demolition and construction of footpaths at the Falcon and Miler Street intersection</li> <li>Installation of stormwater drainage</li> </ul>
Other upgrade works	<ul> <li>Upgrade or capacity improvements to the drainage pipelines</li> <li>Upgrade local and arterial roads connecting to the Warringah Freeway Upgrade</li> <li>Installation of shared user paths and cycleways</li> <li>Road pavement, surface finishing and landscaping works</li> </ul>

The main elements of the WFU project scope are shown in Figure 2.

(Reference: Site Management Plan – Warringah Freeway Upgrade, Figure 1) Figure 2: Warringah Freeway Upgrade project scope

## 1.3 Purpose and scope of this CPAS

This CPAS has been prepared to describe how the Contractor, during the Stage 2 works, will comply with the requirements of the NSW Minister for Planning and Public Space's Conditions of Approval (CoA) E135, E136, E139 and E140. The scope of the CPAS includes on- and off-street parking changes during the Stage 2 works that are located outside the approved CSSI footprint. Car parking requiring removal inside the approved CSSI footprint has been considered in the EIS and has already been approved under the Infrastructure Approval (SSI-8863). Notwithstanding, car parking spaces that will be removed during the Stage 2 works that are located within the approved CSSI footprint have been assessed and identified.

The CPAS will be lodged to DPIE at least one month prior to the commencement of any work that will impact on parking. These works will not commence until the CPAS has been approved by DPIE.

The requirements of CoA E135, E136, E139 and E140 and where they are met in this CPAS are shown in Table 3. The requirements of the relevant REMMs are shown in Table 4.

CoA No.	Condition requirements	Where addressed in CPAS
E135	The locations of all heavy vehicles used for spoil haulage will be monitored in real time and the records of monitoring kept using Virtual Superintendent.	
E136	A Road Dilapidation Report for heavy vehicle travel on local roads is prepared and provided to the relevant local council.	Section 5.4
E139	Vehicles (including light and heavy vehicles) associated with the CSSI must be managed to:	
	a. minimise parking on local roads	
		Also refer to Traffic Management and Safety Plan (TTAMP)
	b. minimise idling and queuing on state and regional	Section 5.3
	roads	Also refer to the (TTAMP)

Table 3: CoA E135, E136, E139 and E140 compliance

CoA No.	Condition requirements	Where addressed in CPAS
	c. not carry out marshalling of construction vehicles near sensitive land use(s)	Section 5.3 Also refer to the (TTAMP)
	<ul> <li>not block or disrupt access across pedestrian or shared user paths at any time</li> </ul>	Section 5.3 Also refer to the (TTAMP)
	e. ensure spoil haulage vehicles adhere to the nominated haulage routes identified in the Traffic, Transport and Access Management CEMP Sub- plan	Section 5.4 Also refer to the (TTAMP) & Appendix B
E140	A Construction Parking and Access Strategy must be prepared to identify and mitigate impacts resulting from on- and off-street parking changes during construction of the CSSI. The Strategy must include, but not necessarily be limited to:	
	a. achieving the requirements of Condition E139	Section 4.4, Table 1 (TTAMP) & Appendix B
	<ul> <li>b. confirmation and timing of the removal of on- and off-street parking associated with construction of the CSSI</li> </ul>	Section 4.3
	<ul> <li>parking surveys of all parking spaces to be removed or occupied by the CSSI workforce to determine current demand during peak, off-peak, school drop- off and pick up, weekend periods and during special events</li> </ul>	Section 3.1 and Appendix A
	<ul> <li>consultation with affected stakeholders utilising existing on- and off-street parking stock which will be impacted as a result of construction</li> </ul>	Section 2 and Appendix C
	<ul> <li>e. assessment of the impacts of changes to on- and off-street parking stock taking into consideration, occupation by the CSSI workforce, outcomes of consultation with affected stakeholders and considering the impacts of special events</li> </ul>	Section 2, 4 & 4.5
	f. identification of mitigation measures to manage impacts to stakeholders as a result of on- and off- street parking changes including, but not necessarily limited to, staged removal and replacement of parking, provision of alternative parking arrangements, managed staff parking arrangements and working with relevant council(s) to introduce parking restrictions adjacent to work sites and compounds or appropriate residential parking schemes	Section 5
	<ul> <li>g. where residential parking schemes already exist, off-road parking facilities must be provided for the CSSI workforce</li> </ul>	Section 4.1
	<ul> <li>mechanisms for monitoring, over appropriate intervals, to determine the effectiveness of implemented mitigation measures</li> </ul>	Section 6.1
	<ul> <li>details of shuttle bus service(s) to transport the CSSI workforce to construction sites from public transport hubs and off-site car parking facilities (where these are provided) and between construction sites</li> </ul>	Section 4.1
	<ul> <li>provision of contingency measures should the results of mitigation or monitoring indicate implemented measures are ineffective</li> </ul>	Section 6.4
	<ul> <li>k. provision of reporting of monitoring results to the Planning Secretary and relevant council(s) at three monthly intervals</li> </ul>	Section 6.3
	The Construction Parking and Access Strategy must be submitted to the Planning Secretary for approval at least one	Section 1.3

CoA No.	Condition requirements	Where addressed in CPAS
	month before the commencement of any works that impact existing parking. The approved Strategy must be implemented before impacting on on-street parking.	

#### Table 4: REMM compliance

REMM No.	REMM requirements	Where addressed in CPAS
CTT7	Vehicle movements to and from construction sites will be managed to ensure pedestrian, cyclist and motorist safety. Depending on the location, this may require manual supervision, physical barriers, temporary traffic signals and modifications to existing signals or, on occasion, police presence.	Section 5.4
CTT9	Where provision of construction on-site parking cannot accommodate the full construction workforce, feasible and reasonable management measures that minimise impacts on parking on local roads will be identified and implemented. Depending on the location, management measures may include workforce shuttle buses and the use of public transport.	Section 4.1

A rapid assessment of parking spaces that will be removed during the Stage 2 work is shown in Table 5.

Assessment criteria	WFU 6 – Ridge Street east	WFU 8 – Cammeray Golf Course	WFU 9 – Rosalind Street
Has the Roads Act 1993 been enacted or does TfNSW already own / control the land?	Yes	Yes	Yes
Is the parking located within the approved CSSI footprint?	Yes	Yes	Yes
Has sufficient off-streetcar parking been provided for the construction workforce?	Yes	Yes	Yes
How many parking spaces are proposed to be removed?	9 spaces	10 spaces	3 spaces
Are there sufficient remaining car parking spaces to meet parking demand post-removal?	Yes	Yes	Yes
Where addressed in CPAS	Sections 3.5, 4.3.3 and 4.5	Sections 3.6, 4.3.4 and 4.5	Sections 3.7, 4.3.9 and 4.5

Table 5: Rapid assessment of parking spaces to be removed

## 2. Consultation, endorsement, and approval

The CPAS will be accepted by the Contractor Project Manager, Contractor Environmental Manager and Transport for NSW (TfNSW) prior to lodgement to DPE for approval.

For the Site Establishment works, there is primarily no change to the parking arrangements approved under the Stage 1 CPAS on Arthur Street (WFU4), Berry Street (WFU 5), High Street (WFU2), High Street (WFU3) and on Rosalind Street (WFU9). There is a minor change to on-street parking at the eastern end of Ridge Street (WFU6) and on the northern side of Ernest Street (WFU 8) between Merlin St and Park Ave which aligns with the extent of change identified in the EIS for the project.

Parking surveys were carried out on the streets adjacent to the Construction Support Site. Surveys therefore included the current removal of spaces at Ridge Street, Rosalind Street and Ernest Street. The surveys show that spare on-street carparking capacity remains in the vicinity of the Construction Support Sites at Ridge Street (WFU6), Ernest Street (WFU8) and Rosalind Street (WFU9) as outlined in Section 3.

The EIS Table 8.17: Impacts on Local Roads & Parking, identified the removal of about 12 car spaces on Ridge Street at the eastern end, up to 10 car spaces on Ernest Street for access to the Cammeray Golf Course and up to 10 car parking spaces would be removed to provide suitable access to other construction support sites established for the Warringah Freeway Upgrade such as the Rosalind Street east construction support site (WFU9). The removal of parking for construction purposes identified in the Stage 2 CPAS is consistent with or less than the removal of parking identified in the EIS.

Consultation was undertaken with affected stakeholders associated with on-street car parking removal proposed on Ridge Street, Ernest Street and Rosalind Street, in accordance with CoA E140(d),(e) and (f). In accordance with CoA A5 a Parking Consultation Summary Report has been prepared to document the consultation undertaken in the development of the CPAS as required by CoA E140(d),(e) and (f). This Parking Consultation Summary will be lodged to DPE along with this CPAS.

The intent of this consultation was to inform affected stakeholders, to assess impacts to affected stakeholders and to develop specific mitigation measures to manage the impacts to affected stakeholders. This consultation included the following:

- Letter box drops
- Door knocks
- Emails
- Phone calls
- Online Survey.

No specific mitigation measures were identified following the outcomes of stakeholder consultation associated with the removal of on-street car parking on Ridge Street, Ernest Street and Rosalind Street. Therefore, no additional mitigation measures were developed.

Taking into consideration the level of on-street parking demand during special events with regards to occupation of on-street parking by the CSSI workforce and outcomes of consultation with affected stakeholders it is considered that equitable and sustainable access to on-street parking is maintained for stakeholders.

This is because the occupancy rate is within the local roads WFU parking zones/precincts on-street parking capacity with the already removed car parking spaces on Ridge St, Rosalind St and Ernest St adjacent to the Warringah Freeway, the construction management protocols manage the construction workforce parking requirement and the road network parking management system on weekdays supports resident parking with regulatory deterrents to the potential longer-term occupation of on-street parking spaces by the CSSI workforce. There is a minor impact to stakeholders on-street parking amenity.

As works progress, further changes to parking restrictions and supply may be required to support the operation of the Construction Support Sites. Prior to any changes occurring, consultation will occur with affected stakeholders, including North Sydney Council as required. In addition, where parking meters are identified to be impacted by construction, consultation with North Sydney Council will be undertaken. This CPAS will be updated to include the outcomes of the consultation and any additional mitigation measures that may be identified.

Ongoing consultation with stakeholders, including the surrounding community, will be conducted throughout works in accordance with the Community Communication Strategy (CCS).

## 3. Existing conditions

## 3.1 Parking survey approach

In accordance with CoA E140(c), parking surveys have been undertaken at all locations where on-street parking spaces are proposed to be removed to determine existing parking demand during peak, off-peak, school drop-off and pick up, weekend periods and during special events.

The parking surveys were undertaken on the following days and times:

- Thursday 3 February 2022 Friday 4 February 2022, Monday 7 February 2022 Wednesday 9 February 2022
  - 8:30am (weekday morning peak / school drop-off)
  - 3pm (school pick up)
  - 5pm (weekday evening peak)
  - 10pm (weekday evening off-peak)
- Saturday 5 February 2022 Sunday 6 February 2022
  - 12pm (weekend day)
  - 11pm (weekend evening).

These days do not coincide with public holidays or school holidays. The parking survey results can therefore be considered an accurate representation of a typical weekday and weekend.

The relevant Construction Support Sites are located within or adjacent to the WFU Construction Precincts work site as described in the TAN. North Sydney Council's 'What's On'' website indicates no special events in early February 2022.

Subsequent to the February 2022 parking occupancy surveys project wide on-street car parking occupancy surveys where carried out for the WFU Construction Precincts at the same time as local area and the City CBD special events occurred. The special events included:

- Vivid Sydney Light, Music and Ideas Festival 27<sup>th</sup> May to 18 June 2022 at night from 6pm.
- AFLW Winter Series Saturday, 28 May Bon Andrews Oval at 11am and 1.30pm and the Rugby League Sunday, 29 May North Sydney Oval at 2pm.
- Rugby Union (Shute Shield) Saturday, 9 July North Sydney Oval and Bon Andrews Oval between 9:00am and 5:00pm.

The February 2022 and May/June 2022 parking surveys were undertaken at the locations indicated in Figure 3 and as outlined in Appendix A.

Figure 3: Parking survey location map

	Northern Precinct	Not Surveyed as no impact on parking
8	NH 1 – Northern Hub	West Street     Metcalfe Street

Note:

1. Zone/Precinct Parking surveys conducted May/June & July 2022

2. WFU Parking Surveys conducted Thursday 3 February to Wednesday 9 February 2022

## 3.1.1 Parking survey methodology

All nominated locations subject to the parking survey were initially inspected to note existing capacity and existing parking restrictions (e.g., untimed, timed parking, loading zones, clearways). Where onstreet parking spaces are not marked, the maximum number of parking spaces was determined in accordance with Australian Standard 2890.5-1993 Parking facilities Part 5: On-street parking.

On each day and time listed above, all nominated locations were surveyed by vehicle and the number of occupied spaces was documented.

## 3.1.2 Calculation of parking occupancy

Parking occupancy is defined as the ratio of the number of occupied spaces to the total of available spaces and weighted for the presence of clearways:

 $Parking \ occupancy \ (\%) = \frac{Number \ of \ occupied \ spaces}{Total \ number \ of \ available \ spaces}$ 

## 3.2 WFU 2 & 3 – High Street south & north

### 3.2.1 Site overview

The WFU 2 - High Street south and WFU3 - High Street north Construction Support Site (CSS) are located at North Sydney. WFU2 is located on land bound by the Cahill Expressway to the west and south, the High Street off ramp to the east, and High Street to the north, and WFU3 is located on land bound by Alfred Street North/Cahill Expressway to the west and High Street to the north, south and east.

These adjacent road carriageways provide an access function only and there is no legal parking provision along these road frontages.

#### 3.2.2 Parking supply

Given the roads adjacent to WFU 2 and WFU3 do not permit car parking, the assessment considered 14 parking spaces on High Street and Alfred Street North. These spaces are allocated as follows:

- No parking spaces are provided on the southern side of High Street or western side of Alfred Street North
- High Street (northern side, between Alfred Street North and 44 High Street) seven spaces 2P unmetered, 8:30am to 6pm, Monday to Friday (permit holders excepted
- Alfred Street North (eastern side, between Whaling Road and High Street) seven spaces 2P metered, 8:30am to 6pm, Monday to Friday.

The allocation of parking spaces is shown spatially in Figure 4.

Figure 4: Existing parking supply – Alfred Street North and High Street

## 3.2.3 Parking occupancy

Existing parking occupancies on High Street and Alfred Street North during the various surveyed days and times are detailed in Table 7. The results show the following:

- Overall occupancies were relatively low at below 50% in the weekday periods, with slightly higher occupancies at the weekend
- However, parking was observed to be concentrated on High Street, it was observed to have little to no spare parking capacity in all surveyed periods

There was spare capacity on Alfred Street South in all surveyed periods.

Day	Time period	Occupied spaces	Unoccupied spaces	Total available spaces	Parking occupancy
Average weekday	8:30am (weekday morning peak / school drop-off)	5	9	14	36%
	3pm (school pick up)	6	8	14	43%
	5pm (weekday evening peak)	6	8	14	43%
	10pm (weekday evening off-peak)	6	8	14	43%
Average	12pm (weekend day)	9	5	14	64%
weekend	11pm (weekend evening)	7	7	14	50%

Table 7: Existing parking occupancy – Alfred Street North and High Street

## 3.3 WFU 4 – Arthur Street east

#### 3.3.1 Site overview

The WFU4 - Arthur Street east CSS is located at North Sydney on land bound by the Warringah Freeway to the east, Arthur Street to the west, Mount Street to the north and High Street in the south. The adjacent road carriageways provide an access function only and there is no parking provision along these road frontages.

## 3.3.2 Parking supply

No parking spaces are provided on the eastern side of Arthur Street and clearway exists on the western side of Arthur Street during 6am to 10am and 3pm to 7pm on Monday to Friday, where no parking is allowed in these periods.

There is a total of 29 parking spaces on the western side of Arthur Street (between Pacific Highway and Mount Street). These spaces are allocated as follows:

- Two spaces 10am to 3pm, Monday to Friday and 8:30am to 12:30pm, Saturday served as a loading zone, untimed parking at all other times
- 18 spaces ½ P metered, 10am to 3pm, Monday to Friday
- Nine spaces untimed parking, for motorbikes only.

The allocation of parking spaces is shown spatially in Figure 5.

Figure 5: Existing parking supply – Arthur Street

## 3.3.3 Parking occupancy

Existing parking occupancies on Arthur Street during the various surveyed days and times are detailed in Table 8. The results show the following:

- Clearways exist during the morning peak / school drop-off, school pick up and evening peak periods on weekdays, parking is restricted in these periods
- Parking was also observed in the loading zone and clearway (restricted parking). These spaces were
  excluded from the assessment as they do not allow for public parking
- The increase in parking in the off-peak period is likely associated with long-term resident / visitor parking servicing adjoining houses.

#### Table 8: Existing parking occupancy – Arthur Street

Day	Time period	Occupied spaces	Unoccupied spaces	Total available spaces	Parking occupancy
Average weekday	8:30am (weekday morning peak / school drop-off)	No parking spaces	are available in the	se periods due to the	e presence of
	3pm (school pick up)	No parking spaces are available in these periods due to the presence of clearways.			
	5pm (weekday evening peak)				
	10pm (weekday evening off-peak)	7 22 29 23%			
Average	12pm (weekend day)	14 13 27* 52%			
weekend	11pm (weekend evening)	13	16	29	45%

\*Note: Some parking spaces are unavailable as they are in the loading zone at that time period.

## 3.4 WFU 5 – Berry Street east

#### 3.4.1 Site overview

The WFU5 - Berry Street east CSS is located at North Sydney on land bound by the Warringah Freeway to the east, Arthur Street and Berry Street/Warringah Freeway on ramp to the west and Doris Fitton Park to the south along Arthur Street to the west.

The adjacent road carriageways provide an access function only and there is no legal parking provision along these road frontages.

## 3.4.2 Parking supply

No parking spaces are provided on either side of Berry Street (between Walker Street to Little Walker Street) and the eastern side of Arthur Street. Clearway exists on the western side of Arthur Street during 6am to 10am on Monday to Friday, where no parking is allowed in these periods.

There is a total of 30 parking spaces on Little Walker Street and Arthur Street. These spaces are allocated as follows:

- Little Walker Street (between Berry Street and 153 Walker Street)
  - Eastern side 10 spaces 1P metered, 8:30am-6pm, Monday to Friday; 2P metered, 6pm-mid night, Monday to Friday
  - Western side three spaces 8:30am to 6pm, Monday to Friday served as loading zone, untimed parking at all other times
- Arthur Street (western side, between Berry Street and Mount Street)
  - Seven spaces 10am to 6pm, Monday to Friday served as a loading zone, untimed parking at all other times
  - 10 spaces 1P metered, 10am-6pm, Monday to Friday; 1P unmetered 8:30am-12:30pm, Saturday.

The allocation of parking spaces is shown spatially in Figure 6.

Figure 6: Existing parking supply – Berry Street, Arthur Street and Little Walker Street

## 3.4.3 Parking occupancy

Existing parking occupancies on Berry Street, Little Walker Street and Arthur Street during the various surveyed days and times are detailed in Table 9. The results show the following:

- Overall occupancies were relatively low at below 50% in all surveyed periods, except for the morning peak period
- Highest occupancies were recorded in the morning peak periods which were concentrated on Little Walker Street, it is likely associated with short-term parking for workers or visitors in the North Sydney CBD
- Parking was also observed in the loading zone (restricted parking). These spaces were excluded from the assessment as they do not allow for public parking.

Day	Time period	Occupied spaces	Unoccupied spaces	Total available spaces	Parking occupancy
Average weekday	8:30am (weekday morning peak / school drop-off)	7	6	13*	54%
	3pm (school pick up)	11	12	23*	48%
	5pm (weekday evening peak)	9	14	23*	39%
	10pm (weekday evening off-peak)	4	26	30	13%
Average	12pm (weekend day)	6	24	30	20%
weekend	11pm (weekend evening)	2	28	30	7%

Table 9: Existing parking occupancy – Berry Street, Arthur Street and Little Walker Street

\*Note: Some parking spaces are unavailable as they are in the loading zones or clearways at that time period.

## 3.5 WFU 6 – Ridge Street east

#### 3.5.1 Site overview

The WFU6 - Ridge Street east CSS is located at North Sydney on land bound by the Warringah Freeway to the east, residential properties on Ridge Street to the south and west and St Leonards Park to the north.

## 3.5.2 Parking supply

No parking spaces are provided on the driveway between Ridge Street and no through road. There is a total of 139 parking spaces on Ridge Street and Walker Street. These spaces are allocated as follows:

- Ridge Street northern side
  - Between Miller Street and unnamed road 23 spaces 8P metered (permit holders excepted)
    - 8:30am to 6pm, Monday to Thursday
    - 8:30am to 11pm, Friday
    - 10am to 6pm, Saturday and Sunday
  - East of Walker Street 36 spaces 8P metered, 8:30am to 6pm, Monday to Friday (permit holders excepted)
- Ridge Street southern side
  - Between no through road and Walker Street
    - Five spaces 2P unmetered, 8:30am to 6pm, Monday to Friday (permit holders excepted)
    - Six spaces 2P metered, 8:30am to 6pm, Monday to Friday (permit holders excepted)
  - Between Walker Street and Miller Street
    - 12 spaces 2P unmetered, 8:30am to 6pm, Monday to Friday (permit holders excepted)
    - Two spaces 2P unmetered, 8:30am to 3:30pm. Monday to Friday; no parking from 7:30am to 8:30am and 3:30pm to 6pm on school days
    - Three spaces no parking from 7:30am to 6pm, Monday to Friday; untimed parking at all other times
- Walker Street (between Ridge Street and 185 Walker Street) eastern side
  - Nine spaces 1P unmetered, 8:30am to 11pm, Monday to Friday and 6pm to 11pm, Saturday (permit holders excepted)
  - Three spaces no parking from 7:45am to 4pm on school days; untimed parking at all other times
  - Three spaces 1P unmetered, 9:30am to 2:30pm and 4pm to 11pm, Monday to Friday and 6pm to 11pm, Saturday (permit holders excepted); 2 min P unmetered, 8am to 9:30am and 2:30pm to 4pm on school days
  - Seven spaces 2P metered, 8:30am to 6pm, Monday to Friday (permit holders excepted)
  - Five spaces untimed parking, for motorbikes only
- Walker Street (between McLaren Street and Ridge Street) western side
  - Five spaces 8:30am to 6pm, Monday to Friday served as loading zone; untimed parking at all other times
  - One space disability parking only
  - 10 spaces 1P unmetered, 8:30am to 11pm, Monday to Friday and 6pm to 11pm, Saturday (permit holders excepted)
  - Five spaces no parking from 8am to 9:30am and 2:30pm to 4pm on school days; 1P unmetered, 9:30am to 2:30pm and 4pm to 11pm, Monday to Friday and 6pm to 11pm, Saturday
  - Four spaces no parking from 8am to 2:30pm on school days; 2:30pm to 4pm, Monday to Friday served as bus zone; untimed parking at all other times.

The allocation of parking spaces is shown spatially in Figure 7.

Figure 7: Existing parking supply – Ridge Street and Walker Street

## 3.5.3 Parking occupancy

Existing parking occupancies on Ridge Street and Walker Street during the various surveyed days and times are detailed in Table 10. The results show the following:

- Overall occupancies varied throughout the surveyed periods
- Parking was observed in some restricted parking zones, including "no stopping", "no parking", "authorized car share vehicles only", loading zone and bus zone. These spaces were excluded from the assessment as they do not allow for public car parking
- The highest occupancies of 88% and 75% were recorded in the weekday school pick up and weekend day periods. This is likely associated with parents / guardians picking up students at Wenona School and sports activities at St Leonards Park
- Spare capacity was observed in the night time surveyed periods.

Table 10: Existing parking occupancy - Ridge Street and Walker Street

Day	Time period	Occupied spaces	Unoccupied spaces	Total available spaces	Parking occupancy
Average weekday	8:30am (weekday morning peak / school drop-off)	77	42	119*	65%
	3pm (school pick up)	105	14	119*	88%
	5pm (weekday evening peak)	82	47	129*	64%
	10pm (weekday evening off-peak)	41	98	139	29%
Average	12pm (weekend day)	104	35	139	75%
weekend	11pm (weekend evening)	36	103	139	26%

\*Note 1: Some parking spaces are unavailable as they are in the loading zones or restricted parking on school days at that time period.

## 3.6 WFU 8 – Cammeray Golf Course

## 3.6.1 Site overview

The WFU8 Cammeray Golf Course CSS is bound by residential properties to the north, Cammeray Golf Course to the east, Warringah Freeway to the west, and the construction support site for the Western Harbour Tunnel (WHT10) to the south.

## 3.6.2 Parking supply

There is a total of 112 parking spaces on Morden Street, Bells Avenue and Warringa Road (northern access of the support site) and 41 parking spaces on Ernest Street and Park Avenue (southern access of the support site). These spaces are allocated as follows:

- Morden Street (between Bells Avenue and no through road)
  - Northern side 17 spaces, untimed parking
  - Southern side 23 spaces, untimed parking
- Bells Avenue (between Amherst Street and southern end of Bells Avenue)
  - Eastern side 13 spaces, untimed parking
  - Western side 10 spaces, untimed parking
- Bells Avenue (additional, between no through road to Bells Avenue / Warringa Road)
  - Northern side four spaces, 8P unmetered, 8:30am to 6pm, Monday to Friday
  - Southern side four spaces, 8P unmetered, 8:30am to 6pm, Monday to Friday (permit holders excepted)
- Warringa Road (between Bells Avenue and Amherst Street)
  - Northern side 17 spaces, 8P metered, 8:30am to 6pm, Monday to Friday (permit holders excepted)
  - Southern side 24 spaces, 8P metered, 8:30am to 6pm, Monday to Friday (permit holders excepted)
- Ernest Street (between Merlin Street and Park Avenue)
  - Northern side WFH upgrade early works
  - Southern side clearway exists from 6am to 10am on Monday to Friday
    - Five spaces, 2P unmetered, 10am to 6pm, Monday to Friday (permit holders excepted)
    - 10 spaces, untimed parking outside the clearway period
  - Park Avenue (between Ernest Street and Sutherland Street)
  - Eastern side 11 spaces, 4P unmetered, 8:30am to 6pm, Monday to Friday (permit holders excepted)
  - Western side

- Five spaces, 2P unmetered, 8:30am to 4:30pm, Monday to Friday (permit holders excepted); no parking from 4:30pm to 7pm, Monday to Friday
- Four spaces, 2P unmetered, 8:30am to 6pm, Monday to Friday
- Six spaces, 4P unmetered, 8:30am to 6pm, Monday to Friday (permit holders excepted).

The allocation of parking spaces for the northern and southern access of support site are shown spatially in Figure 8 and Figure 9.

Figure 8: Existing parking supply – Morden Street, Bells Avenue and Warringa Road (northern access of support site)

Figure 9: Existing parking supply – Ernest Street and Park Avenue (southern access of support site)

## 3.6.3 Parking occupancy

Existing parking occupancies on Morden Street, Bells Avenue, Warringa Road, Ernest Street and Park Avenue during the various surveyed days and times are detailed in Table 11. The results show the following:

- Overall occupancies were relatively low at below 50% in all surveyed periods
- Parking was observed to be concentrated on Park Avenue with 63% occupied in the weekday morning peak periods and 70% occupied in the weekend day periods. It is likely associated with short-term parking for Cammeray Golf Club, Cammeray Tennis Club, and the North Sydney Skate Park
- Parking was observed in the "no parking" zone on Park Avenue. These spaces were excluded from the assessment as they do not allow for public parking.

Table 11. Existing parking occupancy -	Mordon Straat Rolls Avanua	e, Warringa Road, Ernest Street and Park Aven	
	NOIGEN SILCEI, DEIS AVENUE,	, wannga koaa, Linesi sileer aha rak Aven	UC

Day	Time period	Occupied spaces	Unoccupied spaces	Total available spaces	Parking occupancy
Average weekday	8:30am (weekday morning peak / school drop-off)	51	87	138*	37%
	3pm (school pick up)	57	96	153	37%
	5pm (weekday evening peak)	56	92	148*	38%
	10pm (weekday evening off-peak)	49	104	153	32%
Average weekend	12pm (weekend day)	51	102	153	33%
	11pm (weekend evening)	40	113	153	26%

\*Note: Some parking spaces are unavailable as they are within the clearways at that time period.

## 3.7 WFU 9 – Rosalind Street

#### 3.7.1 Site overview

The WFU9 – Rosalind Street CSS is bound by the Warringah Freeway Miller Street northbound off ramp to the north and east, Rosalind Street to the south and Miller Street to the west.

#### 3.7.2 Parking supply

There is a total of 63 parking spaces on Miller Street, Rosalind Street and Anzac Avenue. These spaces are allocated as follows:

- Miller Street (between Rosalind Street and 353 Miller Street)
  - Eastern side 15 spaces, clearway exists at 6am to 10am, Monday to Friday; untimed parking at all other times
  - Western side seven spaces, clearway exists at 3pm to 7pm, Monday to Friday; untimed parking at all other times
- Rosalind Street (between Miller Street and Anzac Avenue)
  - Northern side
    - Four spaces, untimed parking
    - Nine spaces, 2P unmetered, 8:30am to 6pm, Monday to Friday (permit holders excepted)
  - Southern side eight spaces, 2P unmetered, 8:30am to 6pm, Monday to Friday (permit holders excepted)
- Anzac Avenue (between Rosalind Street and pedestrian crossing)
  - Eastern side eight spaces, 2P unmetered, 8:30am to 6pm, Monday to Friday (permit holders excepted and parallel parking only)
  - Western side 12 spaces, untimed parking.

The allocation of parking spaces is shown spatially in Figure 10.

Figure 10: Existing parking supply – Miller Street, Rosalind Street and Anzac Avenue

## 3.7.3 Parking occupancy

Existing parking occupancies on Miller Street, Rosalind Street and Anzac Avenue during the various surveyed days and times are detailed in Table 12. The results show the following:

- Overall occupancies varied throughout the surveyed periods
- The highest occupancies of 90% and 82% were recorded in the weekday morning peak / school drop-off and school pick up periods. This is likely associated with parents / guardians dropping off and picking up students at Anzac Park Public School
- Parking was observed in the "no parking" zone on Rosalind Street. These spaces were excluded from the assessment as they do not allow for public parking.

Day	Time period	Occupied spaces	Unoccupied spaces	Total available spaces	Parking occupancy
Average weekday	8:30am (weekday morning peak / school drop-off)	43	5	48*	90%
	3pm (school pick up)	46	10	56*	82%
	5pm (weekday evening peak)	39	17	56*	70%
	10pm (weekday evening off-peak)	35	28	63	56%
Average	12pm (weekend day)	38	25	63	60%
weekend	11pm (weekend evening)	32	31	63	51%

#### Table 12: Existing parking occupancy – Miller Street, Rosalind Street and Anzac Avenue

\*Note: Some parking spaces are unavailable as they are within the clearways at that time period.

## 3.8 NH1 – Northern Hub

#### 3.8.1 Site overview

The Northern Hub CCS is located within the Warringah Freeway corridor at Cammeray. The site lies along the north bound verge and inner Brook Street exit lane of the Warringah Freeway from Miller Street to a point approximately 50m east of West Street adjacent to St. Thomas Rest Park.

#### 3.8.2 Parking supply

There is a total of 71 parking spaces on West Street and Metcalfe Street. These spaces are allocated as follows:

- West Street eastern side
  - Between 257 West Street and Metcalfe Street 17 spaces, 2P unmetered, 8:30 to 6pm, Monday to Friday (permit holders excepted)
  - Between Metcalfe Street and 197 West Street
    - Seven spaces, untimed parking
    - Three spaces, 1P unmetered, 8:30 to 6pm, Monday to Friday (permit holders excepted)
    - Two spaces, 2P unmetered, 8:30 to 6pm, Monday to Friday (permit holders excepted)
- West Street western side
  - Between Huntington Street and Sexton Place
    - Five spaces, 4P metered, 8:30am to 6pm, Monday to Friday (permit holders excepted)
    - Two spaces, untimed parking, motorbikes only
    - Seven spaces, untimed parking
    - Four spaces, 4P unmetered, 8:30am to 6pm, Monday to Friday
  - Between roundabout and Jenkin Street
    - Two spaces, untimed parking
    - Two spaces, ½ P unmetered, 8:30am to 6pm, Monday to Friday and 8:30am to 12:30pm, Saturday
- Metcalfe Street (between West Street and no through road)
  - Northern side eight spaces, 2P unmetered, 8:30am to 6pm, Monday to Friday (permit holders excepted)
  - Southern side 12 spaces, 2P unmetered, 8:30am to 6pm, Monday to Friday (permit holders excepted).

The allocation of parking spaces is shown spatially in Figure 11.

Figure 11: Existing parking supply – West Street and Metcalfe Street

#### 3.8.3 Parking occupancy

Existing parking occupancies on West Street and Metcalfe Street during the various surveyed days and times are detailed in Table 13. The results show the following:

- Overall occupancies are relatively high at 50-60% in all surveyed periods
- Parking was observed to be more concentrated on West Street, it is likely associated with long-term resident / visitor parking servicing adjoining houses
- Parking was also observed in restricted parking zone on West Street which only allows authorized car share vehicles parking. That space was excluded from the assessment as it does not allow for public parking.

Day	Time period	Occupied spaces	Unoccupied spaces	Total available spaces	Parking occupancy
Average weekday	8:30am (weekday morning peak / school drop-off)	42	29	71	59%
	3pm (school pick up)	41	30	71	58%
	5pm (weekday evening peak)	41	30	71	58%
	10pm (weekday evening off-peak)	41	30	71	58%
Average	12pm (weekend day)	36	35	71	51%
weekend	11pm (weekend evening)	33	38	71	46%

Table 13: Existing parking occupancy – West Street and Metcalfe Street

## 3.9 Public transport accessibility

Work sites associated with the Stage 2 works have good public transport accessibility, with bus services located in close proximity. They are detailed in Table 14 and shown in Figure 12. These bus services provide connections to several railway stations for Sydney Trains services to destinations across Greater Sydney.

Table 14: Bus services at each compound and support site

Location	Nearest bus stops	Distance from worksite	Bus services	Connections to Sydney Trains services
WFU 2 & 3 – High Street south and north	<ul> <li>Stop ID 206059 – High Street after Clark Road</li> <li>Stop ID 206060 – High Street at Clark Road</li> <li>Stop ID 206069 – Clarke Road after Adderstone Avenue</li> </ul>	300m	Route 263 – Crow's Nest to City Bridge Street via Cremorne	North Sydney station
WFU 4 – Arthur Street east	<ul> <li>Stop ID 206013 – Victoria Cross, Miller Street</li> <li>Stop ID 206024 – Miller Street before Blue Street</li> <li>Stop ID 206023 – Pacific Highway after Blue Street</li> <li>Stop ID 206027 – Greenwood Plaza, Pacific Highway</li> <li>Stop ID 206042 – St Peters Church, Blues Point Road</li> <li>Stop ID 206045 – Miller Street after Pacific Highway</li> <li>Stop ID 206067 – Pacific Highway at Walker Street</li> <li>Stop ID 206088 – Pacific Highway at Mount Street</li> <li>Stop ID 206052 – Victoria Cross, Miller Street</li> <li>Stop ID 206085 – Miller Street before Pacific Highway</li> </ul>	400-500m	Routes 115, 144N, 150X, 154X, 200, 202, 203, 207, 208, 209, 228, 229, 230, 252, 254, 260, 261, 263, 265, 269, 286, 287, 290, 291, 320, 602X, 612X, 622, N90, N91 – services to Sydney CBD and various destinations across the North Shore and Northern Beaches	North Sydney station
WFU 5 – Berry Street east	<ul> <li>Stop ID 206019 – Miller Street after McLaren Street</li> <li>Stop ID 206045 – Miller Street after Pacific Highway</li> <li>Stop ID 206047 – Miller Street at McLaren Street</li> <li>Stop ID 206048 – Miller Street at Ridge Street</li> <li>Stop ID 206085 – Miller Street before Pacific Highway</li> </ul>	400-500m	Routes 144N, 150X, 154X, 202, 203, 207, 208, 209, 228, 229, 230, 254, 286, 260, 587, 291 – services to Sydney CBD and various destinations across the North Shore and Northern Beaches	North Sydney station
WFU 6 – Ridge Street east	<ul> <li>Stop ID 206016 – Miller Street at Falcon Street</li> <li>Stop ID 206017 – Miller Street opposite Carlow Street</li> <li>Stop ID 206018 – North Sydney Oval, Miler Street</li> <li>Stop ID 206050 – Miller Street before Falcon Street</li> </ul>	400m	Routes 114, 144, 144N, 150X, 154X, 202, 203, 207, 208, 209, 228, 229, 230, 260	North Sydney station

#### WARRINGAH FREEWAY UPGRADE

Location	Nearest bus stops	Distance from worksite	Bus services	Connections to Sydney Trains services
	<ul> <li>Stop ID 206072 – Miller Street at Falcon Street</li> <li>Stop ID 206073 –Falcon Street at Miller Street</li> <li>Stop ID 206074 –Falcon Street at Bardsley Gardens</li> <li>Stop ID 206075 –Falcon Street at Moodie Street</li> </ul>

NH1 – Northern Hub	<ul> <li>Stop ID 206213 – Miller Street opposite Abbott Street</li> <li>Stop ID 206215 – Miller Street before Ernest Street</li> <li>Stop ID 206218 – Miller Street at Abbott Street</li> <li>Stop ID 206221 – Amherst Street after West Street</li> <li>Stop ID 206222 – Amherst Street after Miller Street</li> <li>Stop ID 2065105 – West Street at Huntington Street</li> </ul>	400-500m	Routes 194, 201, 202, 203, 204, 205, 206, 207, 208, 209, 260, 263, 267	St Leonards and North Sydney stations

WARRINGAH FREEWAY UPGRADE

(Reference: Construction Parking and Access Strategy – Stage 1A, Figure 3-15) Figure 12: Bus network in Neutral Bay, North Sydney, and Cammeray

## 4. Proposed parking, access changes and impacts

Car parking requiring removal inside the approved CSSI footprint has been considered in the EIS and has already been approved under the Infrastructure Approval (SSI-8863). Notwithstanding, car parking spaces that will be removed during the Stage 2 work in locations that are within the approved CSSI footprint have been assessed and identified and are detailed in Section 4.3.

Throughout construction there may be occasional times when short term on-street car parking removal (i.e., for the period of one shift) will be required under a Road Occupancy Licence (ROL) or due to the progression of a utilities trench. In these cases, any short term on-street car parking removed will be reinstated at the end of each shift or following expiration of the ROL. Any such short-term car parking removal will be managed in accordance with the TTAMP and site specific CTMPs.

The proposed timing for the establishment of proposed construction sites is listed in Table 15.

Establishment works	Start date	Finish date
High Street south (WFU2)	Q1 of 2023 (dates to be agreed with TfNSW)	December 2023
High Street north (WFU3)	Q1 of 2023 (dates to be agreed with TfNSW)	December 2023
Arthur Street east (WFU4)	Q3 of 2022 (dates to be agreed with TfNSW)	December 2023
Berry Street east (WFU5)	Q3 of 2022 (dates to be agreed with TfNSW)	December 2023
Ridge Street east (WFU6)	Q1 of 2022 (dates to be agreed with TfNSW)	December 2023
Cammeray Golf Course (WFU8)	June 2022	December 2023
Rosalind Street east (WFU9)	Q3 of 2022 (dates to be agreed with TfNSW)	December 2023
Northern Hub (NH1)	Q3 of 2022 (dates to be agreed with TfNSW)	December 2023

Table 15: Construction support site establishment – indicative implementation and duration of works

## 4.1 Construction workforce parking

The construction workforce will comprise of trades and construction personnel, and engineering, functional and administration staff. The size of the workforce will vary throughout the duration of the Stage 2 Warringah Freeway Upgrade program, with a reduction in personnel for evening and night shifts. The maximum size of the construction workforce is expected to be 345 people.

The on-street parking area wide is a combination of restricted, residential permit schemes, paid parking, and clearways. Off-street parking will be provided for workforce at a remote parking station for up to 250 vehicles. Shuttle buses are proposed to be provided for workforce between any off-street parking facilities, North Sydney Train Station and the work sites after the construction commences from May 2022. The proposed parking facility would be accessible via the major arterial road network, and/or would be subject to further approvals as necessary.

A further 51 parking spaces are provided on-site across the support sites, to support parking for essential vehicles (i.e., vehicles carrying tools, plant, and other equipment to facilitate works) and enable them to be contained within the footprint of each work site.

A review of Journey to Work data collected from the 2016 Census (ABS, 2022) demonstrates that for heavy and civil construction workers in the Greater Sydney area, approximately 70% drive to work on a typical day. A further 16% catch public transport, with the remainder using active or alternate transport modes to travel to work.

Applying this mode share to the Stage 2 Warringah Freeway Upgrade workforce, the project would expect to generate a demand for 240 parking spaces across the project. With the parking provisions described above, the construction workforce is expected to have a minimal impact on on-street parking.

Noting the availability of public transport services to the project sites as discussed in Section 3.9, construction workforce will be encouraged to use public transport to and from the work sites. Workers will be supported through providing information on available public transport services and other sustainable transport modes, along with other green travel initiatives identified in Section 5.2. As above, shuttle buses would also stop at North Sydney Train Station to assist workers to utilise this option. This is expected to further decrease the demand for car parking associated with the works.

## 4.2 Locations outside the approved CSSI footprint

No on-street parking spaces outside the approved CSSI footprint have been identified as requiring removal as part of the Stage 2 works.

## 4.3 Locations within the approved CSSI footprint

A Site Establishment Traffic Management Plan for the Construction Support Sites (handover (existing) and proposed) has been prepared and submitted on 24 March 2022 to TfNSW (CJP) for their approval. Minor changes are proposed to the current (Stage 1 CPAS) parking arrangements at the handover(existing) construction support sites, however spare parking capacity at the Proposed CSS has been identified at each CSS where minor changes are proposed. The parking impacts have been included in the EIS therefore the impacts have been anticipated, and consultation with affected stakeholders was undertaken as part of the EIS. Notification will be undertaken as per the TMP Section 7, Communication Strategy and as per agreed start dates outlined in Table 3 of the Site Establishment Traffic Management Plan for the Construction Support Sites.

## WFU2 & WFU 3- High Street south and north

No on- or off-street parking is proposed to be removed for WFU2 and WFU3. Access and egress from both sites will be managed through security gates.

#### 4.3.1 WFU 4 – Arthur Street east

No on- or off-street parking is proposed to be removed for WFU4. Access and egress from the site will be managed through security gates.

#### 4.3.2 WFU 5 – Berry Street east

No on- or off-street parking is proposed to be removed for WFU5. Access and egress from the site will be managed through security gates.

#### 4.3.3 WFU 6 - Ridge Street east

#### Impacts of parking changes

Operation of the Ridge Street east construction support site will result in long-term temporary removal of an additional three (3) on-street parking spaces on Ridge Street to provide suitable access to and from the construction support site. This would result in a total of nine (9) on-street parking spaces on Ridge Street to be removed (refer Figure 13).

The removal of spaces in this area has potential to impact long-term resident / visitor parking servicing adjoining unit blocks, townhouses and houses, and also short-term parking associated with the North Sydney Bowling Club. However, existing parking occupancy as detailed in Table 10 shows there is spare capacity to accommodate the displacement of parking with a minimum of 14 unoccupied spaces elsewhere on Ridge Street during the surveyed periods. Therefore, the impact is considered minor and mitigation measures are not required.

The parking spaces will be removed under Traffic Guidance Schemes (TGS) / ROL for the site establishment implementation duration (i.e., from May 2022), and these parking spaces will be removed on a full-time basis over the project duration.

Figure 13 Spaces to be removed at Ridge Street

#### Comparison with impacts assessed in the EIS

Table 8-17 in Chapter 8 of WHTWFU EIS states that operation of the Ridge Street east support site would result in the removal of 12 on-street parking spaces. The current proposal as part of the Stage 2 works requires the temporary removal of nine (9) on-street parking spaces on Ridge Street.

## 4.3.4 WFU 8 – Cammeray Golf Course

#### Impacts of parking changes

Operation of the Cammeray Golf Course construction support site will result in long-term temporary removal of ten (10) on-street parking spaces on the northern side of Ernest Street to provide suitable construction work space and accommodate road safety barriers for the Ernest Street and CGC construction support site (refer Figure 14).

AM Clearway operates on the northern side of Ernest Street during peak periods, so the removal of these spaces would only have potential to impact the resident / visitor parking servicing adjoining unit blocks, townhouses, and houses, and also parking associated with the Cammeray Tennis Club and North Sydney Skate Park outside of peak periods. This would be mitigated by the availability of parking on nearby local roads such as Ernest Street (east of Merlin Street), Oaks Avenue and Park Avenue. Table 11 shows that the surrounding streets have low occupancy rates and high availability of parking. Therefore, the impact is considered minor and mitigation measures are not required.

Figure 14 Spaces to be removed at Ernest Street

#### Comparison with impacts assessed in the EIS

Table 8-17 in Chapter 8 of WHTWFU EIS states that operation of the Cammeray Golf Course support site would result in the removal of ten on-street parking spaces. This aligns to the proposed temporary removal of ten on-street parking spaces on Ernest Street as part of the Stage 2 works that are the subject of this CPAS.

#### 4.3.5 WFU 9 – Rosalind Street east

#### Impacts of parking changes

Operation of the Rosalind Street east construction support site will result in long-term temporary removal of three (3) spaces on Rosalind Street to provide suitable access to and from the construction support site. The Stage 1 CPAS had previously approved the removal of up to three (3) spaces and therefore there is no proposed change from the previous arrangement (refer Figure 15).

The removal of these spaces has potential to impact long-term resident / visitor parking servicing adjoining unit blocks and townhouses. However, existing parking occupancy as detailed in Table 12 shows there is spare capacity to accommodate the displacement of parking with a minimum of 5 unoccupied spaces elsewhere on Rosalind Street during the busiest surveyed periods. Therefore, the impact is considered minor and mitigation measures are not required.

Figure 15 Spaces to be removed at Rosalind Street

#### Comparison with impacts assessed in the EIS

Table 8-17 in Chapter 8 of WHTWFU EIS states that operation of the Rosalind Street support site would result in the removal of ten on-street parking spaces. This aligns to the proposed temporary removal of three on-street parking spaces on Rosalind Street as part of the Stage 2 works that are the subject of this CPAS.

#### 4.3.6 NH1 – Northern Hub

#### Impacts of parking changes

To accommodate a shuttle bus service for workers arriving and departing the site, a 30m section of No Stopping restriction will be replaced with No Parking restriction for the duration of the works at the northeastern end of the West Street bridge. This will allow the shuttle bus to safely drop-off and pick up passengers without impacting on the surrounding public car parking supply. Therefore, the impact is considered minor and mitigation measures are not required.

The spaces will be removed on a full-time basis over the project duration as agreed with TfNSW.

#### Comparison with impacts assessed in the EIS

The NH1 – Northern Hub site was not assessed in the WHTWFU EIS.

#### 4.4 Access impacts

#### 4.4.1 Overview

All construction vehicles will use the most direct connection from local roads to the closest arterial and motorway networks to minimise the impacts on local roads. Construction vehicles will enter and exit the compounds and construction sites in a forward direction to minimise the potential effects on general vehicle traffic flow and pedestrian movements adjacent the site.

Refer to Appendix B for Indicative Construction Vehicle routes showing site access inbound and outbound movements.

#### 4.4.2 WFU2 & WFU 3- High Street south and north

Construction vehicle access in and out of WFU2 – High Street south would be on High Street at the eastern end of the compound via a left-in and left-out gated entry/exit (one way westbound). For WFU3 – High Street north, construction vehicle access in and out of the site would be on High Street on the north-western corner of the site after the Bridge abutment parapet wall via a left-in and left-out (WFU 2) and right-in and right-out (WFU 3) gated entry/exit (one way eastbound). There is also opportunity to use the adjacent shoulder to facilitate vehicle site entry and exit.

Minimal impact is expected on general vehicle traffic flow and pedestrian movements adjacent to each site.

#### 4.4.3 WFU 4 – Arthur Street east

Construction vehicle access in and out of the site would be on Arthur Street towards the northern end of the site via a left-in and left-out gated entry/exit.

Minimal impact is expected on general vehicle traffic flow and pedestrian movements adjacent to the site.

#### 4.4.4 WFU 5 – Berry Street east

Construction vehicle access in and out of the site would be on Berry Street on ramp towards the northern end of the site via a right-in deceleration auxiliary lane and right-out acceleration auxiliary lane and gated entry/exit.

Minimal impact is expected on general vehicle traffic flow and pedestrian movements adjacent to the site.

#### 4.4.5 WFU 6 – Ridge Street east

Construction vehicle access in and out of the site would be on Ridge Street to and from the cul-de-sac turning circle lane via an existing driveway (right-in and left-out) with a gated entry/exit.

As noted in Section 4.3.3, up to nine (9) parking spaces are expected to be removed to facilitate access to and from the site. No other impact is expected on general vehicle traffic flow and pedestrian movements adjacent to the site.

#### 4.4.6 WFU 8 – Cammeray Golf Course

Two access points will be established for the WFU8 – Cammeray Golf Course site:

- Western access will be directly off the southbound lanes of Warringah Freeway
- Southern access will be directly off Ernest Street

These access points will be introduced in stages as establishment works progress.

As noted in Section 4.3.5, ten parking spaces have been removed as part of the Early Works on the northern side of Ernst Street between Merlin Street and Park Ave to provide construction working space and accommodate road safety barriers. No Stopping restrictions have also been installed on Ernst Street as part of the road realignment works.

#### 4.4.7 WFU 9 – Rosalind Street

The site will be accessed via Miller Street and left-in and right-out on Rosalind Street. No access to the site will be permitted via Anzac Avenue.

Three (3) parking spaces had been removed as part of the Early Works to accommodate vehicle movements into the CSS. No Stopping has also been implemented on Rosalind Street.

No further impact is expected on general vehicle traffic flow and pedestrian movements adjacent to the site.

#### 4.4.8 NH1 – Northern Hub

Vehicle access and egress will be via the Warringah Freeway. A shuttle bus will service NH1 with the bus stop located 60m north of Metcalfe Street. To provide suitable drop-off and pick up location. No Parking will replace a 30m segment of No Stopping on southern side of West Street at the eastern end of the bridge. This will allow for the shuttle bus to drop-off and pick up passengers while still preventing parking in this location.

Minimal impact is expected on general vehicle traffic flow and pedestrian movements adjacent to the site.

#### 4.5 Impacts of Special Events

#### 4.5.1 Overview

There is a vast quantity of restricted parking stock within and adjacent to the Warringah Freeway project boundary. The relevant Warringah Freeway project parking stock is shown in Figure 3 and Table 5. The type of on-street parking, and supply and demand weekday and weekend on a special event day are contained in Appendix A.

In order to carry out an assessment and consider the impacts of special events on on-street parking with respect to occupation by the CSSI workforce and outcomes of consultations with affected stakeholders, on-street car parking occupancy surveys where carried out project wide at the same time that the City CBD and local area special events occurred at St Leonards Park. The special events included:

- Vivid Sydney Light, Music and Ideas Festival 27<sup>th</sup> May to 18 June 2022 at night from 6pm;
- AFLW Winter Series Saturday, 28 May Bon Andrews Oval at 11am and 1.30pm;
- Rugby League Sunday, 29 May North Sydney Oval at 2pm. Parking Occupancy; and
- Rugby Union (Shute Shield) Saturday, 9 July North Sydney Oval and Bon Andrews Oval between 9:00am and 5:00pm.

#### 4.5.1.1 On-street parking assessment project wide

Existing on-street parking occupancies project wide for the Vivid - CBD special event for the various surveyed days and times are detailed in Table 16. This is an annual event that takes place nearby the project area, is well patronised and potentially has an audience that may seek on-street parking within and adjacent to the project area due to its proximity and ease of access (walking, bus and train) to the City CBD.

Date/Day	Time period	Occupied Spaces	Unoccupied Spaces	Total Available Spaces	Parking Occupancy
Friday	5pm (Weekday evening peak)	1177	741	1918	61%
27/05/2022	10pm (Weekday evening off-peak)	1147	771	1,918	60%
Saturday 28/05/2022	11pm (Weekend evening)	1,055	863	1,918	55%
Sunday 29/05/2022	11pm (Weekend evening)	1,054	864	1,918	55%
Monday	5pm (Weekday evening peak)	1,220	698	1,918	64%
30/05/2022	10pm (Weekday evening off-peak)	1,132	786	1,918	59%
Tuesday	5pm (Weekday evening peak)	1,142	776	1,918	60%
31/05/2022	10pm (Weekday evening off-peak)	1,067	851	1,918	56%
Wednesday	5pm (Weekday evening peak)	1,229	689	1,918	64%
1/06/2022	10pm (Weekday evening off-peak)	1,169	749	1,918	61%

Table 16: WFU parking zones/precincts - PM average weekday and weekend parking occupancy

Extracted from Zone/Precinct Parking surveys conducted between Friday 27 May to Wednesday 1 June and Saturday 9 July - 2022

The results of the WFU parking zones/precincts – PM average weekday and weekend parking occupancy show the following:

- Overall occupancies are moderate at 55-64% on a weekday and on a weekend evening; and
- There is some practical spare parking capacity of between 20-30% (average 778 unoccupied spaces Table 16) within the WFU parking zones/precincts.

#### 4.5.1.2 On -street Parking assessment local area

Existing on-street parking occupancies for the sporting events conducted at St Leonards Park, North Sydney during the surveyed days and time are detailed in Table 17. The AFLW and Rugby Union are popular local sporting event conducted at North Sydney that attracts a sizeable group of players and spectators that would seek on-street parking near the St Leonards Park venue.

Precincts	Time period	Occupied Spaces	Unoccupied Spaces	Total Available Spaces	Parking Occupancy
	12:00 (Weekend				
<b>Ridge St Precinct</b>	day)	157	9	166	95%
Alfred St North	12:00 (Weekend	41	26	67	61%
Precinct	day)	41	20	07	01%
Falcon-Miller St	12:00 (Weekend	83	89	172	48%
Precinct	day)	65	69	172	4070
South Falcon St	12:00 (Weekend				
Precinct	day)	131	39	170	77%
	12:00 (Weekend				
<b>Portal St Precinct</b>	day)	87	26	113	77%

Table 17: WFU parking zones/precincts surrounding St Leonards Park - average weekend day Saturday

Extracted from Zone/Precinct Parking surveys Appendix A conducted Saturday 28 May and Saturday 9 July - 2022

The results of the Construction Precincts surrounding St Leonards Park – average weekend day Saturday parking occupancy show the following:

- Overall occupancies are moderate to high at 61-95% on the weekend day, except for the Falcon-Miller St Precinct which has a much lower parking occupancy of 48%; and
- There is some practical spare parking capacity of between 8-37% (average 189 unoccupied spaces in Table 17) in the WFU parking zones/precincts surrounding St Leonards Park, North Sydney.

As a comparison Table 18, a similar sporting special event survey was undertaken during Stage 1 CPAS in the Ridge St Precinct. The survey was completed on Saturday 28 November 2020 and coincided with the Women's Big Bash League final between Sydney Thunder and Melbourne Stars that was held at North Sydney Oval.

Day	Time period	Occupied spaces	Unoccupied spaces	Total available spaces	Parking occupancy
Ridge St Precinct	8pm (Saturday evening)	71	19	90	79%

Table 18: Ridge Street- average weekend evening Saturday 28 November 2020

Extracted from Stage 1 CPAS

This survey also found that there was 19 unoccupied on-street parking occupancy in the Ridge St Precinct.

The comparison shows that there is some variability in the level of occupancy depending on the type of special event.

#### 4.5.1.3 Consideration of special event impacts

The on-street parking occupancy assessment of a special event for a project wide weekday/weekend evening and local area (St Leonards Park) weekend scenarios indicates that there is some practical and variable spare on-street parking capacity within the local roads WFU parking zones/precincts adjacent to the Warringah Freeway. This is verified by the presence, past and present of unoccupied on-street parking spaces on weekdays and on weekends next to the construction support sites in the recent WFU parking zones/precincts on-street parking surveys.

The outcomes of consultation with affected stakeholders including identified issues, assessment and impact of parking changes are contained in the accompanying CoA 5 Report, Section 7. The community engagement received little response from the stakeholders, with only two responses concerned about long-term temporary disruption on-street parking. The temporary removal of on-street parking; 10 of the 12 on Ridge Street, 10 on Ernest Street and 3 of the 10 on and nearby Rosalind Street were accounted for under the EIS (Refer Chapter 8 Table 8.17: Impacts on Local Roads & Parking). The removal of parking for construction purposes identified in the Stage 2 CPAS is consistent with or less than the removal of parking identified in the EIS.

Weekdays the on-street parking is highly regulated with resident parking schemes, time limits and metered parking that create a turn-over in on-street parking and which deters long-term parking intrusion by the CSSI workforce which is a stakeholder concern. The CSSI workforce would be encouraged to use public transport to travel to and from work where feasible and reasonable to minimise the potential parking impacts on the local road network.

On both weekdays and weekends where, on-site parking is not provided or where provision of on-site parking cannot accommodate the workforce; shuttle bus transfers will be the preference for travel by CSSI workforce between construction support sites.

Taking into consideration the level of on-street parking demand during special events with regards to occupation of on-street parking by the CSSI workforce and outcomes of consultation with affected

stakeholders it is considered that equitable and sustainable access to on-street parking is maintained for stakeholders.

The occupancy rate is within the local roads WFU parking zones/precincts on-street parking capacity with the already removed car parking spaces on Ridge St, Rosalind St and Ernest St adjacent to the Warringah Freeway, the construction management protocols manage the construction workforce parking requirement and the road network parking management system on weekdays supports resident parking with regulatory deterrents to the potential longer-term occupation of on-street parking spaces by the CSSI workforce. There is a minor impact to stakeholders on-street parking amenity.

#### 5. Mitigation measures

#### 5.1 Potential mitigation measures

Potential measures that were considered to mitigate the identified impacts of the long-term temporary removal of on-street parking include the following:

- Consultation with affected stakeholders of parking proposed to be removed
- Staging the removal of on-street parking
- Replacement of parking and provision of alternative parking locations and / or arrangements
- Introduction of parking restrictions near hubs and work sites where they currently do not exist, or alteration of existing parking restrictions
- Working with relevant council(s) to introduce parking restrictions adjacent to work sites and compounds or appropriate residential parking schemes. The on-street parking area wide is a combination of restricted, residential permit schemes, paid parking, and clearways.
- Manage staff parking arrangements
- Daily workforce parking to be contained within the footprint of individual work sites
- Provision of parking at ancillary facilities
- Ancillary facility design to considered impacts to pedestrian and shared user paths
- Ongoing communication with workforce on measures to reduce impacts to parking and access
- Parking demand reduction (through the use of other transport modes).

#### 5.2 Green travel plan

To offset potential workforce parking demand, the following green travel measures will be in place for the construction workforce:

- Provision of electric bus to circulate (on-demand) the construction support sites
- Provision of financial incentives not to use private vehicles to get to and from work
- Encouraging use of public transport through the recruitment and onboarding process and site toolbox talks to reduce the number of private vehicles travelling to and from the work sites
- Encouraging carpooling site toolbox talks will be utilized to encourage the construction workforce on the same shifts to coordinate with others to carpool to / from similar locations
- Working with car share companies and using existing and additional car share parking spots around the project footprint.

#### 5.3 Construction workforce parking

As described in Section 4.1, construction workforce parking is expected to have a minimal impact on onstreet parking given the provision of a remote parking station and proposed shuttle bus service. In addition:

- Where practical, essential vehicles (i.e., vehicles carrying tools, plant, and other equipment to facilitate works) will be contained within the footprint of each work site with no impact on adjacent onstreet parking
- The provision of parking at ancillary facilities means there will be no requirement to idle and queue on state and regional roads
- The provision of parking at ancillary facilities, and the limited number of deliveries required at work sites, means there will be no requirement to marshal construction vehicles
- The ancillary facilities have been designed so that construction vehicles will not block access across
  pedestrian or shared user paths at any time
- Communication of parking restrictions to the construction workforce parking restrictions around the hubs and work sites will be communicated to the construction workforce through site inductions where they will be supplied with a Project Worker Code of Conduct, site toolbox talks, and pre-start meetings as required. Where workers are impacting the amenity of adjacent residents, are not complying with the Project Worker Code of Conduct, or are repeatedly parking inappropriately, they may be required re-attend the site inductions. Stronger sanctions, up to and including dismissal, may be implemented for repeat offenders at the discretion of the Project Manager.

#### 5.4 Haulage management

According to CoA E132, DPIE approval is required for any local roads that have not been identified and assessed in the EIS. Construction support sites WFU2, WFU 3, WFU4, WFU5, WFU6 and WFU9 have haulage routes approved under the EIS. These routes are indicated in Appendix B.

An E132 Local Roads Plan for use of all local roads will be prepared and submitted to DPIE for approval. A dilapidation survey will be carried out. An E132 Local Roads Plan has been prepared for the Cammeray Precinct /Ernest Street Site Establishment TMP which will be lodged with DPIE for approval. A Road Dilapidation Survey has been carried out and the Report has been prepared for the local roads where heavy vehicles travel on and include:

- Park Ave Ernest St to Cammeray Rd
- Cammeray Rd Park Ave to Warringa Rd/Amherst St.
- Amherst St Warringa Rd to Miller St

The Road Dilapidation Report will be provided to North Sydney Council within the prescribed time frame before the use of the above roads by the Project.

A site Vehicle Movement Plan (VMP) will be prepared and implemented for the use of the local roads as a haulage route and provided to the North Sydney Council. All construction vehicles will be required to use the local roads in accordance with the Minister's conditions of approval.

The locations of all heavy vehicles used for spoil haulage will be monitored in real time and the records of monitoring kept using Virtual Superintendent which is a geospatial database to track the spoil trucks.

Vehicle movements to and from construction sites will be managed to ensure pedestrian, cyclist and motorist safety. Depending on the location, this may require manual supervision, physical barriers, temporary traffic signals and modifications to existing signals or, on occasion, police presence.

#### 6. Monitoring and reporting

#### 6.1 Monitoring of mitigation measures

Monitoring to assess the effectiveness of this CPAS will be undertaken on roads that have been impacted by the long-term temporary removal of on-street parking, i.e., Ridge Street, North Sydney, Ernest Street, Cammeray and Rosalind Street, Cammeray.

Inspections will be undertaken at fortnightly intervals and will involve the following:

- Confirmation that where alternative parking arrangements have been provided, these are being implemented
- Monitoring the impacts of the removal of on-street parking on surrounding roads
- Inspections for the presence of construction workforce parking on local roads.

Inspections will be undertaken by project engineers. The Project Manager will be responsible for implementing the mitigation measures contained in this CPAS with support from the Traffic Manager.

#### 6.2 Corrective actions

Where monitoring or community complaints identify non-conformances with this CPAS, corrective actions will be undertaken through the project's non-conformance works procedure. Corrective actions will be documented as per the procedure. Where practicable, non-conformances and corresponding corrective actions will be communicated to the construction workforce and reinforced through various communications including but not limited to:

- Site toolbox talks
- Pre-start meetings
- Project alerts
- Investigation and implementation of alternative methods to reinforce this CPAS
- Investigation and implementation of other viable options for the construction workforce to use public transport
- Issue warning notices where the owner of an offending vehicle can be identified
- Documenting actions in weekly and monthly internal reports.

Refer to Section 3.8 of the Construction Environmental Management Plan (CEMP) for further detail on environmental non-conformances.

#### 6.3 Reporting

A quarterly summary report will be provided to North Sydney Council, DPIE and TfNSW regarding the outcomes of the monitoring that has been undertaken in the preceding quarter. Details of non-conformances and corrective actions will be summarised.

#### 6.4 Contingency measures

Contingency measures will depend on the issues / non-conformances identified during monitoring and the effectiveness of corrective actions that have been implemented as described in Sections 6.1 and 6.2, respectively.

Contingency measures will be investigated if it is determined that the corrective actions implemented are ineffective, and may include:

- Investigating the potential to provide additional off-street parking for the construction workforce
- Revising site induction and site toolbox talk content to better encourage the use of public transport and communicate designated and prohibited locations for construction workforce parking
- Amending carpooling communications to encourage an increase in participation rates
- Implementing disciplinary processes for repeated non-conformances.

#### 6.5 Update and amendment of this CPAS

Any revisions to this CPAS will be in accordance with the process outlined in Section 3.12 of the CEMP and will be provided to TfNSW for review and comment and forwarded to the Secretary of DPIE for approval.

A copy of the updated CPAS and record of changes will be distributed to all relevant stakeholders in accordance with the approved document control procedure.

## **Compliance with CoA Requirements**

This Local Roads Plan sets out the minimum client requirements as defined in Table 1, and shows where each requirement has been addressed within this Plan or the wider CPB Contractors Management System (CMS).

Table 1: Comp	oliance wi	th Conditic	ons of App	oroval A5

Requirement			Reference
A5	Consultation Summary Report	Where the terms of this approval require a document or monitoring program to be prepared or a review to be undertaken in consultation with identified parties, evidence of the consultation undertaken must be submitted to the Planning Secretary with the document. The evidence must include:	
		(a) documentation of the engagement with the party identified in the condition of approval that has occurred before submitting the document for approval;	Section 3,4, 5 and Appendix A
		(b) a log of the dates of engagement or attempted engagement with the identified party;	Section 6
		(c) documentation of the follow-up with the identified party where engagement has not occurred to confirm that they do not wish to engage or have not attempted to engage after repeated invitations;	Section 6
		(d) outline of the issues raised by the identified party and how they have been addressed; and	Section 7
		(e) a description of the outstanding issues raised by the identified party and the reasons why they have not been addressed.	Section 8

## 1. Structure of this Plan

This Consultation Summary Report forms part of the Project Management System (PMS). It is part of a suite of plans that together outline how the Warringah Freeway Upgrade will be managed to ensure an integrated approach to meeting contract requirements.

In addition to the Consultation Summary Report, other Project Plans that interface include:

- Construction Parking and Access Strategy; and
- WFU Site Establishment Traffic Management Plan

This plan has the following structure:

Part A: Introduction (Section 1-3) Part B: Community Consultation	<ul> <li>This section clearly defines:</li> <li>Objective</li> <li>Context and scope of works</li> <li>Background</li> <li>Environmental requirements and obligations</li> <li>This section outlines the community consultation summary for approval:</li> <li>Engagement process</li> <li>Identification of stakeholders</li> <li>Stakeholder engagement documentation</li> <li>Stakeholder engagement</li> <li>Identified issues and assessment</li> </ul>
Part C: Appendices	<ul> <li>Outstanding issues</li> <li>A list of appendices providing additional detail that supports this plan including:</li> <li>Engagement documentation</li> <li>Stakeholder Engagement Summary Ridge St, Ernest St and Rosalind St</li> </ul>

## 1.1 Project Overview

Warringah Freeway Upgrade is a critical component to the Western Harbour Tunnel and Beaches Link (WHTBL) Program. It will enable the connection of the new WHTBL motorways into the existing motorway network, ensuring the WHTBL Program delivers its connectivity and safety benefits for public transport, freight and private vehicle customers, while improving the journey experience for existing Warringah Freeway users.

The program of works is designed to boost transport capacity around the Harbour CBD and improve connectivity to and from the Northern Beaches – two areas of importance to Greater Sydney's future as a liveable, productive and sustainable global city. Once complete, the upgraded corridor will optimise demand across Sydney Harbour Tunnel, Sydney Harbour Bridge and Western Harbour Tunnel, enabling each to perform its intended function.

The Warringah Freeway Upgrade consists of surface road upgrades, structural works and ancillary works of an approximate four-kilometre section of the freeway corridor. The upgrade is focused on the simplification of traffic flows and wayfinding, as well as enabling works for the new WHTBL.

Figure 1: Warringah Freeway Upgrade Project Scope

## 1.2 Objectives

The key objectives of this Parking Consultation Summary report is to describe and consider the needs of identified road users' accessibility to on-street parking during construction.

To achieve these objectives, CPBDowner Joint Venture (CPBD) will implement appropriate:

- Controls and procedures during construction activities to address potential parking impacts; and
- Address the relevant CoA requirements outlined in Table 1, and the requirements detailed in the EIS.

## 1.3 Context and scope

This Parking Consultation Summary Report (PCSR) will support the delivery program and the integration of Ridge St, Ernest St and Rosalind St Construction Support Sites into Stage 2 of the Warringah Freeway Upgrade project construction sequencing.

This PCSR has been prepared to address the Minister's Conditions of Approval (CoA A5) as shown in Table 1 with regards Ridge St, Ernest St and Rosalind St Construction Support Sites. This PCSR:

- Describes the stakeholder engagement process;
- Identifies the stakeholders;
- Describes the engagement documentation;
- Identifies and carries out an assessment of the issues raised;
- Addresses the nominated outstanding issues.

Other construction support sites and precinct work sites of the Project, including operational traffic and transport impacts and operation mitigation measures do not fall within the scope of this PCSR and consequently are not included within the processes contained within this PCSR.

## 1.4 Background

The Western Harbour Tunnel and Warringah Freeway Upgrade EIS (January 2020) assessed potential traffic impacts from construction of the Western Harbour Tunnel and Warringah Freeway Upgrade.

As part of the EIS development, a detailed construction traffic and transport assessment was prepared to address the Secretary's Environmental Assessment Requirements (SEARS) issued by the Department of Planning, Industry and Environment (DPE). The EIS Table 8.7: Impacts on Local Roads & Parking, identified the removal of about 12 car spaces on Ridge Street at the eastern end, up to 10 car spaces on Ernest Street for access to the Cammeray golf course and up to 10 car parking spaces would be removed to provide suitable access to other construction support sites established for the Warringah Freeway Upgrade such as the Rosalind Street east construction support site (WFU9).

For the Site Establishment works, there is primarily no change to the parking arrangements approved under the Stage 1 CPAS on Arthur Street (WFU4), Berry Street (WFU 5), High Street (WFU2), High Street (WFU3), Ernest Street (WFU 8) and on Rosalind Street (WFU9). There is a minor change to on-street parking at the eastern end of Ridge Street (WFU6) which aligns with the extent of change

identified in the EIS for the project.

The removal of parking for construction purposes identified in the Stage 2 CPAS is consistent with or less than the removal of parking identified in the EIS and unavoidable.

## 2. Environmental requirements

### 2.1 Minister's Conditions of Approval

In accordance with CoA A5 a Parking Consultation Summary report has been prepared to document the consultation undertaken with identified stakeholders as required by CoA E140(d), (e) and (f).

The requirements of CoA A5, and where they are addressed in this Document are shown in Table 1 Compliance with SWTC Requirements and cross referenced against where the CoA is addressed in this Parking Consultation Summary Report.

In accordance with the IoA SSI-8663 Administrative Conditions Part A General, this Parking Consultation Report will be submitted to DPE for approval before on-street parking is removed. Removal of on-street parking on the local roads will not commence until this Parking Consultation Report, has been approved by DPE.

# Part B

## 3. Stakeholder engagement process

As part of the Warringah Freeway Upgrade early and enabling work CPAS Stage 1, June 2021, the community was consulted about the temporary removal of on-street parking spaces to facilitate early work construction activities. During main work construction, CPBD-JV is seeking to temporarily remove additional on-street parking spaces, and temporarily retain on-street parking spaces currently removed by the early work contractor, to facilitate the establishment of construction main work construction support sites in three locations:

- Location 1: Ridge Street, North Sydney retain six on-street parking spaces currently removed by the early work contractor, and temporarily remove an additional three on-street parking spaces
- Location 2: Rosalind Street, Cammeray retain three on-street parking spaces temporarily removed by the early work contractor
- Location 3: Ernest Street, Cammeray retain ten on-street parking spaces temporarily removed by the early work contractor.

The CPAS must include consultation with affected stakeholders who are utilising existing on- and offstreet parking stock which will be impacted as a result of construction. No on-street parking spaces outside the approved CSSI footprint have been identified as requiring removal as part of main work construction.

## 5. Stakeholder engagement documentation

The community engagement team took TfNSW approved letters on the door knocks and left them in the event of no answer and where they could access letterboxes and/or front doors.

Collateral evidence is provided in Appendix A1

## 6. Stakeholder engagement

- Doorknock and letters to properties June 6, 10, 16, 17 & 20 2022 mapped affected areas
- Community feedback request slip and QR code delivered by letterbox drop to mapped areas.
- All interactions documented in Consultation Manager database including feedback

## 7. Identified issues and assessment

#### Location 1 – Ridge Street, North Sydney

Generally, there was little response to first round doorknocks on 6 June for the Ridge Street Parking. Letters and surveys were left at the properties.

We did notice people were at home but would not answer the door. We delivered to all properties – most of which are owned by Wenona School. We spoke to an assistant at Wenona who was going to pass the information onto the relevant people.

Two buildings were not able to be accessed so we sent the survey to the strata managers of those buildings - 93 and 95A Ridge Street – Both responded to say they had forwarded the information to the residents

#### Location 2 – Rosalind Street, Cammeray

As with Ridge Street a few people were at home when the initial doorknock was conducted on Thursday, 9 June for Rosalind Street parking. All letterboxes were accessible.

#### Location 3 – Ernest Street, Cammeray

As with Ridge/Rosalind Street very few people were at home when the initial doorknock was conducted on Thursday, 9 June for Ernest Street parking. All letterboxes were accessible.

Four online completed parking surveys were received by the project team during the consultation period.

## 7.1 Impact of parking changes

a. **Ridge Street**, North Sydney impact of parking changes (2P 8.30am-6pm Monday to Friday, permit holders accepted)

Operation of the Ridge Street east construction support site will result in long-term temporary removal of three on-street parking spaces on Ridge Street to provide suitable access to and from the construction support site. This would result in a total of nine on-street parking spaces on Ridge Street to be removed. Six on-street parking spaces have been removed by the early work construction contractor and are proposed to be retained during main work construction.

The removal of spaces in this area has potential to impact long-term resident / visitor parking servicing adjoining unit blocks, townhouses and houses, and also short-term parking associated with the North Sydney Bowling Club. However, existing parking occupancy as detailed in Section 3.5 of the CPAS Stage 2 shows there is spare capacity to accommodate the displacement of parking with a minimum of 14 unoccupied spaces elsewhere on Ridge Street during the surveyed periods. Therefore, the impact is considered minor and mitigation measures are not required.

b. **Rosalind Street**, Cammeray impacts of parking changes (2P 8.30am-6pm Monday to Friday, permit holders accepted)

Operation of the Rosalind Street east construction support site will result in long-term temporary removal of three spaces on Rosalind Street to provide suitable access to and from the construction support site. The Stage 1 early work CPAS currently approves the removal of up to three spaces and therefore there is no proposed change from the current arrangement.

WHTBLWFU-CPBD-NWW-RW-PLN-000001-A-CoA 5-Consultation Summary Report Commercial in Confidence

#### c. Ernest Street, Cammeray impacts of parking changes

Operation of the Cammeray construction support site will result in long-term temporary removal of ten on-street parking spaces on the northern side of Ernest Street to provide suitable construction workspace and accommodate road safety barriers for the Cammeray construction support site.

A clearway operates on the northern side of Ernest Street during the afternoon peak period from 3pm to 7pm daily and the removal of these spaces would only have potential to impact the resident / visitor parking servicing adjoining unit blocks, townhouses, and houses, and also parking associated with the Cammeray tennis club and North Sydney skate park outside of peak periods. This would be mitigated by the availability of parking on nearby local roads such as Oaks Avenue and Park Avenue. Section 3.6 of the Stage 2 CPAS shows that the surrounding streets have low occupancy rates and high availability of parking. Therefore, the impact is considered minor and mitigation measures are not required.

## 8. Outstanding issues

Despite a consistent campaign to encourage feedback about the parking survey, the project team received only 4 responses.

Of these, two raised concerns about the long-term nature of the temporary parking disruption. The consideration of the impacts on affected stakeholders are covered in Section 1.4 and in the Stage 2 CPAS Sections 2, 4.4 and 4.5.

The community team will continue to engage with these residents to ensure they are advised of any additional disruptions to minimise impacts on them as much as possible.

Re: Warringah Freeway Upgrade - temporary removal of on-street parking spaces

06 June 2022

#### Dear Resident

Main construction work for the Warringah Freeway Upgrade is now underway. Our project teams have been working to get ready for this major milestone since early 2021 and we have almost finished our early work service and utility relocations in North Sydney, Neutral Bay and Cammeray.

One of our first key activities is building the Warringah Freeway Upgrade temporary construction support sites. The temporary construction sites will support main work construction activities.

To build these sites, and to create safe access, we will need to temporarily remove some additional on-street parking spaces directly adjacent to the construction sites. This will allow us to safely manage construction vehicle movements and material deliveries to and from the construction sites and enable construction vehicles to have safe lines of sight to cyclists, motorists and pedestrians.

As part of our ongoing commitment to work collaboratively with our stakeholders, we are seeking your feedback on the parking usage requirements of residents. Changes to on-street parking are proposed in three locations:

- Location 1: Ridge Street, North Sydney. Six on-street parking spaces were temporarily removed by the early works contractor, which we propose to retain. In addition, we will temporarily remove a further three parking spaces during main work construction, giving a total of nine on-street parking spaces required.
- Location 2: Rosalind Street, Cammeray. We propose to retain the three on-street parking spaces currently removed by the early works contractor during main work construction.
- Location 3: Ernest Street, Cammeray. We propose to retain the ten on-street parking spaces currently removed by the early works constructor during main work construction.

Please see the maps overleaf showing the locations of the on-street parking to be removed.

The additional three parking spaces in Ridge Street (ie. location 1) are planned to be temporarily removed in July 2022. When main construction work is finished in about 2026, all 22 parking spaces from the three locations will be returned to the community for use.

#### **Parking studies**

In recent months, we have carried out detailed parking studies to understand how the temporary removal of these parking spaces might impact you. Our studies identified both the amount of on-street parking spots available in the local area and the usage of these spots during different times and days during the week.

Based on these studies we have found the temporary removal of these additional on-street parking spaces will still leave the local community with a sufficient amount of on-street parking spaces to meet current demand.

### Transport for NSW

Location 1: Ridge Street, North Sydney – three additional on-street parking spaces to be temporarily removed

Location 2: Rosalind Street, Cammeray – three onstreet parking spaces will be temporarily removed

## We would like to hear from you

We invite you to provide feedback on this proposal by participating in our short community survey so we have a greater understanding of you and your circumstances and how this proposal may impact you

To complete the survey, please:

- use the QR code
- complete the survey online caportal.com.au/rms/wfu/cpas-survey
- email us your feedback at <u>ProjectTeam@cpbdownerjv.com.au</u> with the subject 'On-street parking removal feedback'

Please provide your feedback by 5pm Tuesday 21 June 2022.

#### What happens next

We will collate your feedback and seek approval from the Department of Planning and Environment for the temporary removal of these parking spaces. If the proposal is approved, more information will be provided before work starts. If you have any questions, please contact our team on **1800 931 189** or by email <u>ProjectTeam@cpbdownerjv.com.au</u>.

Privacy: Transport for NSW ("TfNSW") is subject to the Privacy and Personal Information Protection Act 1998("PPIP Act") which requires that we comply with the Information Privacy Principles set out in the PPIP Act. All information in correspondence is collected for the sole purpose of assisting in the delivery this project. The information received, including names and addresses of respondents, may be published in subsequent documents unless a clear indication is given in the correspondence that all or part of that information is not to be published. Otherwise we will only disclose your personal information, without your consent, if authorised by the law. Your personal information will be held by us at 27 Argyle Street, Parramatta. You have the right to access and correct the information if you believe that it is incorrect.

Location 3: Ernest Street, Cammeray – ten on-street parking spaces will be temporarily removed outside of clearway times, 7pm to 3pm daily

#### Complete the survey

To complete the parking survey, please use the QR code below

Have you had your say?

This is a reminder to provide your feedback by 5pm Tuesday 21 June 2022.

Re: Warringah Freeway Upgrade - temporary removal of on-street parking spaces

16 June 2022

#### Dear Resident

Main construction work for the Warringah Freeway Upgrade is now underway. Our project teams have been working to get ready for this major milestone since early 2021 and we have almost finished our early work service and utility relocations in North Sydney, Neutral Bay and Cammeray.

One of our first key activities is building the Warringah Freeway Upgrade temporary construction support sites. The temporary construction sites will support main work construction activities.

To build these sites, and to create safe access, we will need to temporarily remove some additional on-street parking spaces directly adjacent to the construction sites. This will allow us to safely manage construction vehicle movements and material deliveries to and from the construction sites and enable construction vehicles to have safe lines of sight to cyclists, motorists and pedestrians.

As part of our ongoing commitment to work collaboratively with our stakeholders, we are seeking your feedback on the parking usage requirements of residents. Changes to on-street parking are proposed in three locations:

- Location 1: Ridge Street, North Sydney. Six on-street parking spaces were temporarily removed by the early works contractor, which we propose to retain. In addition, we will temporarily remove a further three parking spaces during main work construction, giving a total of nine on-street parking spaces required.
- **Location 2:** Rosalind Street, Cammeray. We propose to retain the three on-street parking spaces currently removed by the early works contractor during main work construction.
- **Location 3:** Ernest Street, Cammeray. We propose to retain the ten on-street parking spaces currently removed by the early works constructor during main work construction.

Please see the maps overleaf showing the locations of the on-street parking to be removed.

The additional three parking spaces in Ridge Street (ie. location 1) are planned to be temporarily removed in July 2022. When main construction work is finished in about 2026, all 22 parking spaces from the three locations will be returned to the community for use.

#### **Parking studies**

In recent months, we have carried out detailed parking studies to understand how the temporary removal of these parking spaces might impact you. Our studies identified both the amount of on-street parking spots available in the local area and the usage of these spots during different times and days during the week.

Based on these studies we have found the temporary removal of these additional on-street parking spaces will still leave the local community with a sufficient amount of on-street parking spaces to meet current demand.

#### **Transport for NSW**

Location 1: Ridge Street, North Sydney – three additional on-street parking spaces to be temporarily removed

Location 2: Rosalind Street, Cammeray – three onstreet parking spaces will be temporarily removed

#### We would like to hear from you

We invite you to provide feedback on this proposal by participating in our short community survey so we have a greater understanding of you and your circumstances and how this proposal may impact you

To complete the survey, please:

- use the QR code
- complete the survey online <u>caportal.com.au/rms/wfu/cpas-survey</u>
- email us your feedback at <u>ProjectTeam@cpbdownerjv.com.au</u> with the subject 'On-street parking removal feedback'

Please provide your feedback by 5pm Tuesday 21 June 2022.

To complete the parking survey, please use the QR code below

#### What happens next

We will collate your feedback and seek approval from the Department of Planning and Environment for the temporary removal of these parking spaces. If the proposal is approved, more information will be provided before work starts. If you have any questions, please contact our team on **1800 931 189** or by email <u>ProjectTeam@cpbdownerjv.com.au</u>.

Privacy: Transport for NSW ("TfNSW") is subject to the Privacy and Personal Information Protection Act 1998("PPIP Act") which requires that we comply with the Information Privacy Principles set out in the PPIP Act. All information in correspondence is collected for the sole purpose of assisting in the delivery this project. The information received, including names and addresses of respondents, may be published in subsequent documents unless a clear indication is given in the correspondence that all or part of that information is not to be published. Otherwise we will only disclose your personal information, without your consent, if authorised by the law. Your personal information will be held by us at 27 Argyle Street, Parramatta. You have the right to access and correct the information if you believe that it is incorrect.

Location 3: Ernest Street, Cammeray – ten on-street parking spaces will be temporarily removed outside of clearway times, 7pm to 3pm daily

## Appendix A2 Stakeholder Engagement Summary Ridge St, Ernest St and Rosalind St

## Ridge Street Summary

ADDRESS	WENONA SCHOOL/RESIDENT	ACTION
Ridge Street, North Sydney		
59-61 Ridge Street, North Sydney	Wenona School	Left letter and survey with the receptionist - Georgia
63 Ridge Street, North Sydney	Nobody home	Left letter and survey
65-73 Ridge Street, North Sydney	Wenona School	Tennis courts
75 Ridge Street, North Sydney	Wenona School	Left letter and survey with the receptionist Georgia
77 Ridge Street, North Sydney	Wenona School	Left letter and survey with the receptionist Georgia
79 Ridge Street, North Sydney	Wenona School	Left letter and survey with the receptionist Georgia
81 Ridge Street, North Sydney	Wenona School	Left letter and survey with the receptionist Georgia
83 Ridge Street, North Sydney	Wenona School	Left letter and survey with the receptionist Georgia
85 Ridge Street, North Sydney	Nobody home	Left letter and survey
87 Ridge Street, North Sydney	Nobody home	Left letter and survey
89 Ridge Street, North Sydney	Serviced apartments	Nobody on site – left letter and survey
91 Ridge Street, North Sydney	Nobody home	Left letter and survey
93 Ridge Street, North Sydney	Strata responded to say they had forwarded to residents	No access – Sent to strata manager - Strata Choice – Rebecca Fisher – <u>rfisher@stratachoice.com.au</u> – Emailed letter and survey
95 Ridge Street, North Sydney	Nobody home	Left letter and survey

95A Ridge Street, North Sydney	Strata responded t say they had forwarded to residents	No access – Sent to strata manager - Premium Strata – Marulie Dulay <u>mdulay@premiumstrata.com.au</u> Emailed letter and survey
Miller Street, North Sydney		
255- Miller Street, North Sydney	Wenona School	Left letter and survey with the receptionist Georgia
Walker Street, North Sydney		
201-203 Walker Street, North Sydney	Wenona School	Left letter and survey with the receptionist Georgia
207 Walker Street, North Sydney	Wenona School	Left letter and survey with the receptionist Georgia
209 Walker Street, North Sydney	Nobody home	Left letter and survey

## Rosalind Street summary

ADDRESS	HOUSE/UNITS	ACTION
Rosalind Street, Cammeray	House	No response. Left letter and survey
31 Rosalind Street, Cammeray	House	No response. Left letter and survey
33 Rosalind Street, Cammeray	House	No response. Left letter and survey
35 Rosalind Street, Cammeray	House	No response. Left letter and survey
36-38 Rosalind Street, Cammeray	14 units	Resident in this building said she couldn't be bothered doing the survey as it wont give the community back the parking spaces.
37 Rosalind Street, Cammeray	17 units	No response. Left letter and survey
39 Rosalind Street, Cammeray	15 units	No response. Left letter and survey
40-44 Rosalind Street, Cammeray	54 units	No response. Left letter and survey

Miller Street,		
Cammeray		
353 Miller Street, Cammeray	House	No response. Left letter and survey
361 Miller Street, Cammeray	17 units	Resident from apartments commented on "It is what it is. Loss of parking did not worry them.
365 Miller Street, Cammeray	14 units	No response. Left letter and survey
370 Miller Street, Cammeray	12 units	No response. Left letter and survey
374 Miller Street, Cammeray	13 units	No response. Left letter and survey
376 Miller Street, Cammeray	13 units	Resident in this block not concerned as she does not drive.
378 Miller Street, Cammeray	12 units	No response. Left letter and survey
Edwin Street,		
Cammeray		
11 Edwin Street, Cammeray	12 units	No response. Left letter and survey
13 Edwin Street, Cammeray	13 units	No response. Left letter and survey

## Ernest Street summary

ADDRESS	HOUSE/UNITS	ACTION
Ernest Street, Cammeray		
313 Ernest Street, Neutral Bay	House	No response. Left letter and survey
315-317 Ernest Street, Neutral Bay	3 units	No response. Left letter and survey
319 Ernest Street, Neutral Bay	House	No response. Left letter and survey
321 Ernest Street, Neutral Bay	House	No response. Left letter and survey
323 Ernest Street, Neutral Bay	House	No response. Left letter and survey

325 Ernest Street, Neutral Bay	House	No response. Left letter and survey
327-337 Ernest Street, Neutral Bay	12 townhouses	No response. Left letter and survey
339 Ernest Street, Neutral Bay	House	Resident commented that he was not concerned about the loss of parking
