Dear Mr Dixon

Haerses Road Quarry Modification 5 (DA 165-7-2005-Mod-5)
Request for additional information

I refer to the modification application (Modification 5) of Haerses Road Quarry (DA165-7-2005). The project description differs between the major project portal, the modification report supporting the application and the additional information supplied in response to requests for information by the Department.

Accordingly, the Department requires an updated consolidated detailed project description of the modified development as required by the Department's Rapid Assessment Guidelines for State significant developments, specifically Appendix E *State significant development guidelines – preparing a modification report*, including

- a justification that the proposed change to the infrastructure boundary envelope within the site would not increase the previously assessed environmental impacts of the proposed modification;
- an updated set of figures for the updated project description; and
- replacement of the Porters Road Biodiversity Offset Area included in the consolidated consent with a figure that reflects the final boundary for the site in the Biobanking Agreement.

If you have any questions, please contact Nagindar Singh on 82896873 or via email at nagindar.singh@planning.nsw.gov.au.

Yours sincerely
