Parramatta NSW 2124

Attention: Sally Munk

Dear Sally

**Request For Additional Information - Amendment Letter
Amendment to Modification Application
Rushes Creek Poultry Production Farm - Modification 3**

The current modification application was submitted prior to 1 March 2022, being the operational date of the *Environmental Planning and Assessment Regulation 2021*. The savings and transitional provisions pursuant to Schedule 6 of the *Environmental Planning and Assessment Regulation 2021* state that the *Environmental Planning and Assessment Regulation 2000* still applies to applications submitted before 1 March 2022. Consequently, the *Environmental Planning and Assessment Regulation 2000* applies to this application.

Clause 121B of the *Environmental Planning and Assessment Regulation 2000* provides provisions to enable the amendment of modification applications. This letter has been prepared to address Clause 121B(2) which requires details of the nature of the change to the application if the amendment results in a change to the development. The modification report and submissions report previously prepared outlines the proposed changes to the modification. As such the proposed changes are considered relatively minor and they do not pose any material environmental impacts.

Accordingly, this letter seeks agreement of the consent authority (Department of Planning & Environment (DPE) to the minor amendments to the modification proposal pursuant to Clause 121B of the *Environmental Planning and Assessment Regulation 2000*.

Yours sincerely,

HUGH JONES
Senior Project Consultant - Planning
