Subject: Request for Additional Information

Dear Mr Egan

I refer to your email of 3 August 2022 requesting that the modification application for the construction and operation of a depot, warehouse and wagon storage area be amended to reflect the proposed changes to building designs.

The Department requires a written request and accompanying supporting documents to amend the scope of the proposed modification application.

You are requested to provide the information, or notification that the information will not be provided, to the department by 17 August 2022. If you cannot meet this deadline or do not intend to provide the additional information, please advise the department via the NSW planning portal.

Please note, the Department's assessment timeframes do not include the seeking of further information, awaiting revised scope of works and accompanying documents, re-exhibition (if required) and condition negotiation. It is the proponent's responsibility to accommodate these actions in its own timeframes and to ensure that proposed amended scope and accompanying documentation is provided in a timely manner and is of a standard to allow the Department to complete its assessment.

If you have any questions, please contact Fadi Shakir, Senior Planner, Transport Assessments on 02 9274 6277 or via email at fadi.shakir@planning.nsw.gov.au.

Yours sincerely,

A handwritten signature in black ink, appearing to read "LSE".
