Attention: Mr Thomas Price

Dear Tom,

**RE: UPGRADES TO CHATSWOOD PUBLIC SCHOOL AND CHATSWOOD HIGH SCHOOL
ONGOING ON-STREET PARKING SURVEYS (CONDITION C50)
SUMMARY STATEMENT OF SURVEY RESULTS – OCTOBER 2022**

Overview

On-street parking surveys were undertaken by TTPP in 2019 as part of the State Significant Development Application (SSDA) *Transport and Accessibility Impact Assessment* (TTPP, 23 March 2021) for the Upgrades to Chatswood Public School and Chatswood High School.

Condition C50 of the Consent requires that the effectiveness of measures and strategies contained in the approved *Constructor Worker and Staff Transportation Strategy* (CWSTS) are reviewed every 3 months.

The review includes ongoing on-street parking surveys to validate the 2019 surveys results presented in the SSDA transport assessment and if necessary to develop additional mitigation measures for identified additional impacts.

The validating parking surveys were undertaken in November 2021 and presented in the *Summary Statement of Survey Results*¹. The November 2021 on-street parking surveys indicate that:

- the 2021 on-street parking conditions surrounding the Chatswood Public School and Chatswood High School were similar to those surveyed in 2019; and

¹ *Upgrades to Chatswood Public School and Chatswood High School – 2021 On Street Parking Survey, Summary Statement of Survey Results* (TTPP, 10 November 2021)

- as such the findings of the SSDA transport analysis and associated mitigation and management measures are considered to remain valid and appropriate for inclusion in the management of construction works as detailed in the CTPMSP for the school project.

The purpose of the on-going on-street parking surveys is to establish the effectiveness of measures set out in the CWSTS to control on-street parking and minimise the potential adverse implications associated with construction activities on the Chatswood Public School and Chatswood High School sites.

As part of the monitoring program for ongoing construction works, the on-street parking surveys have been repeated March 2022, May 2022 and most recently in October 2022 and compared with the findings of the 2019 and 2021 survey results.

On-street Parking Survey Summary (October 2022)

The October 2022 on-street parking surveys were undertaken on Thursday 13th October 2022 between 7:00am and 5:30pm and Saturday 15th October 2022 between 10:00am and 4:00pm.

These times are consistent with the previous surveys.

The extent of the survey area is shown in Attachment A.

A comparison summary of the on-street car parking demand profiles for the 2021 and 2022 survey profiles have been prepared and are presented in:

- Figure 1 – Summary Comparison of Weekday On-Street Parking Demand
- Figure 2 – Summary Comparison of Saturday On-Street Parking Demand

The October 2022 on street parking survey data for the weekday exhibits a very similar profile to the March 2022 and May 2022 surveys. The Saturday surveyed demand was lower than the March 2022 and May 2022 surveys.

Overall, the October 2022 survey periods indicates a lower demand for on street parking than for the other 'with construction' survey periods albeit generally slightly higher than the November 2021 survey periods.

Figure 1: Weekday Surveyed On-Street Parking Demand – Comparison November 2021 to October 2022

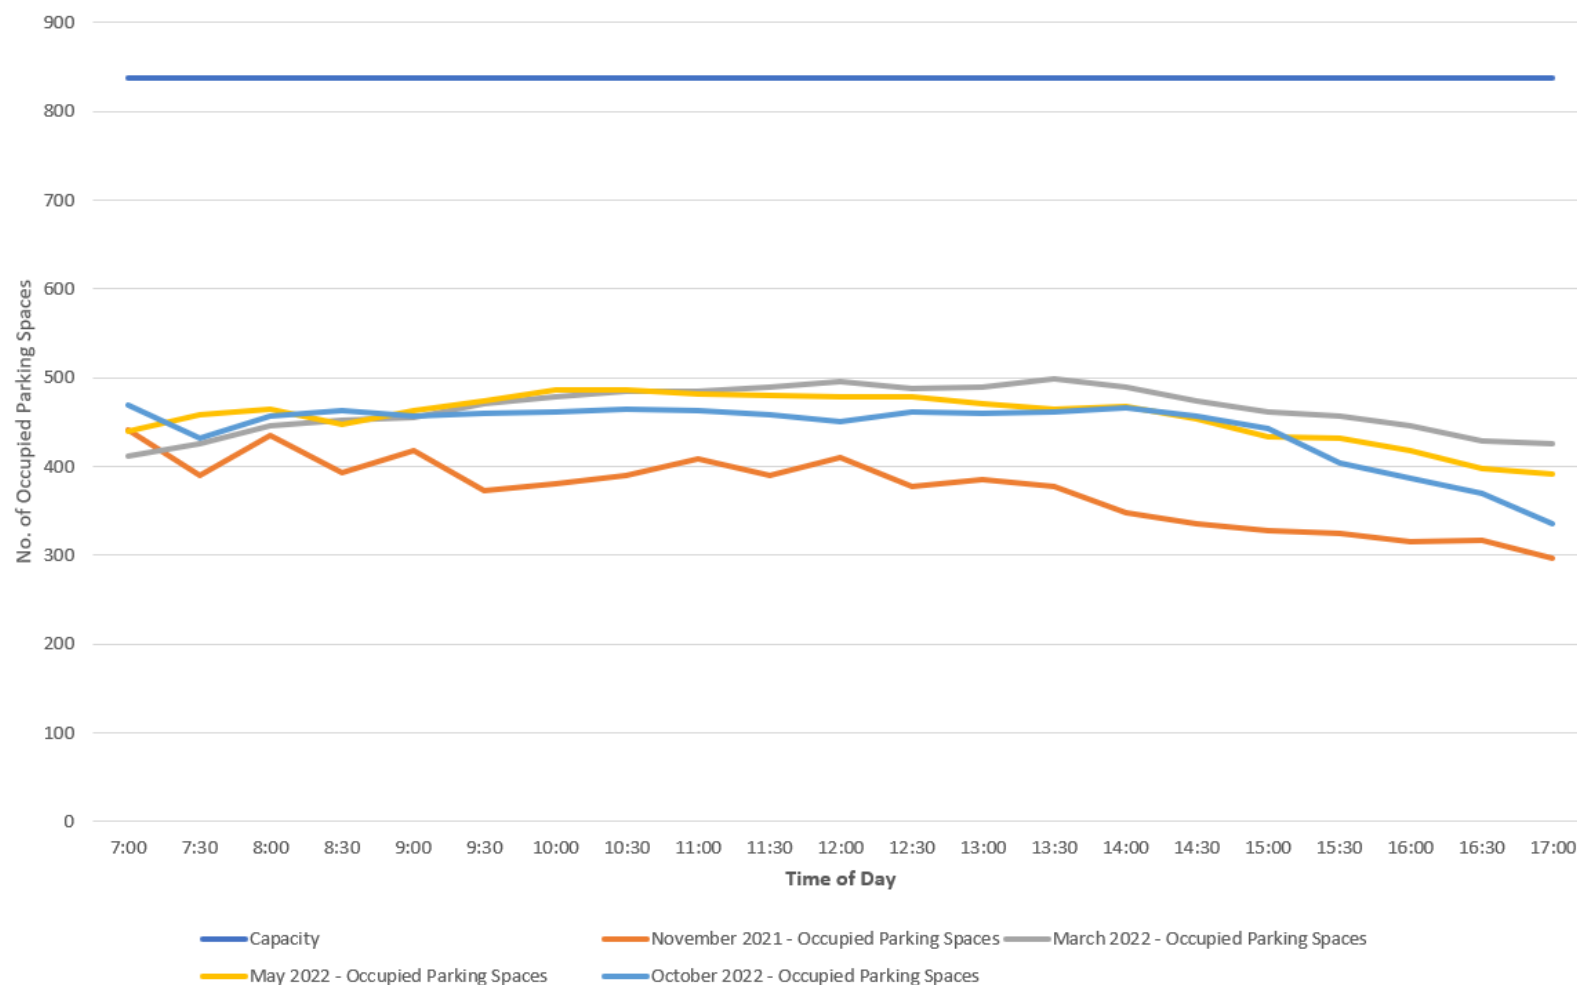

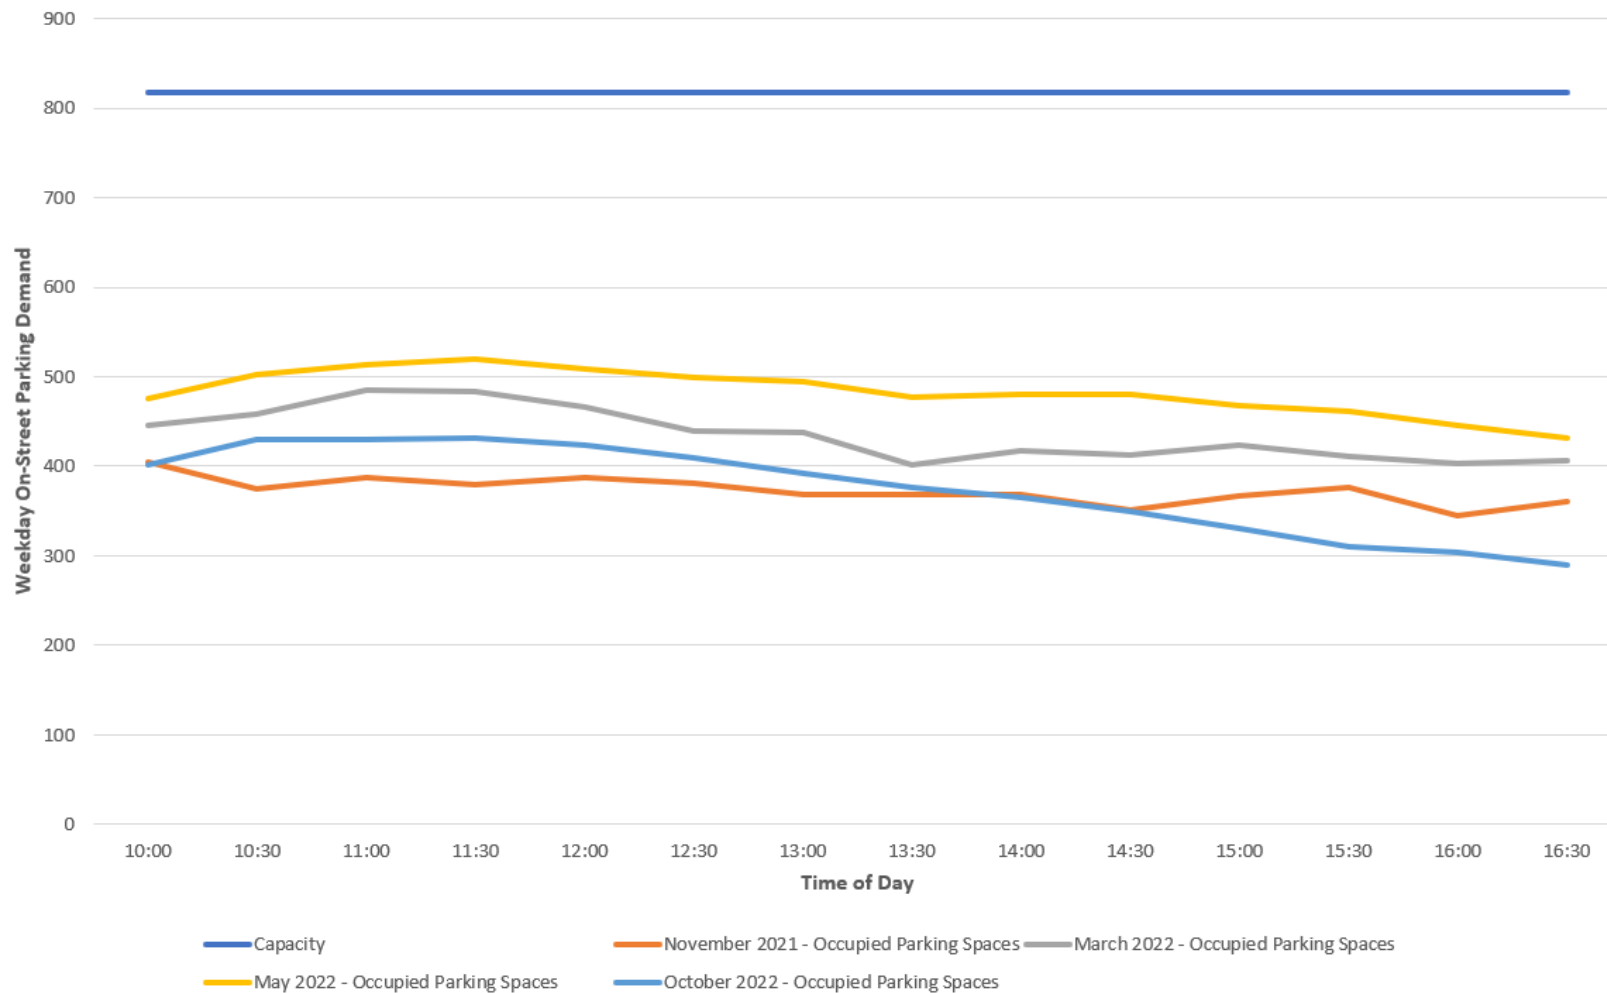

Figure 2: Saturday Surveyed On-Street Parking Demand – Comparison November 2021 to October 2022

Notwithstanding the above, the October 2022 survey results indicate that there continues to be substantial spare on street parking capacity on the streets surrounding the Chatswood Public School and Chatswood High School sites during the construction activities on these sites.

Conclusion

The October 2022 on street parking surveys have indicated that the current (2022) on-street parking conditions surrounding the Chatswood Public School and Chatswood High School are similar to those surveyed in November 2021 (and thus March 2019).

As such the findings of the SSDA transport analysis and associated mitigation and management measures are considered to remain valid and appropriate for construction works associated with school's upgrade project.

Should you have any queries regarding the above or require further information, please do not hesitate to contact the undersigned on 8437 7800.

Yours sincerely,

Jason Rudd
Director
