Parramatta New South Wales 2150
31 October 2022

Subject: Request for Additional Information

Dear Ms Pignone

I refer to the assessment of the Sancrox Quarry Expansion Project (SSD-7293). After careful consideration, the department is requesting that you provide additional information to account for the revised extraction area footprint and extraction staging proposed in response to the department's requests for information regarding the avoidance of biodiversity impacts (issued 26 August 2021, 15 July 2022 and 20 September 2022). You are requested to submit the following additional information:

- an updated water balance model that accounts for predicted surface water and groundwater inflows and outflows, and site water use under dry, median and wet conditions;
- an updated estimate of the reduction in catchment areas of Haydons Creek and Fernbank Creek as a result of the modified extraction area;
- an update to the surface water and groundwater licencing requirements for the project;
- an updated final landform figure, and a final landform cross-section figure;
- an updated project layout figure showing the modified extraction area and the proposed extraction staging; and
- an updated sensitive receptor location figure showing the modified extraction area.

You are requested to provide the information, or notification that the information will not be provided, to the department by Tuesday 8 November 2022. If you cannot meet this deadline, please advise the department via the NSW planning portal.

If you have any questions, please contact Jarrod Blane on 0282751831 or jarrod.blane@dpie.nsw.gov.au.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Jarrod".
