Subject: Request for Additional Information

Dear Mr Wilkinson

I refer to the Environmental Impact Statement for the Apsley Battery Energy Storage System (SSD-35160796). The Department is in the process of finalising its assessment of this project and is requesting that you provide additional information to close out some minor residual queries.

You are requested to provide:

- a figure showing local flood mapping across the site which substantiates the statement in the EIS that the site is not expected to be flood prone given its location at a local high point; and
- confirmation as to whether the project requires the use of any heavy vehicles requiring escort during construction, upgrading and decommissioning, and if so, how many; and

You are requested to provide the above information, or notification that the information will not be provided, to the Department by **Friday 12 May 2023**. If you cannot meet this deadline or do not intend to provide the additional information, please advise the Department via the NSW planning portal.

The assessment period ceases to run between the date of this letter and the date you provide the additional information (or notification that the information will not be provided), in accordance with Part 4 Division 4 of the *Environmental Planning and Assessment Regulation 2021*.

If you have any questions, please contact Kurtis Wathen on 02 8289 6981 or via email at kurtis.wathen@dpie.nsw.gov.au.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Iwan Davies".

Iwan Davies
Director
Energy Assessments
