Subject: Request for Additional Information – Transport for NSW Advice

Dear Mr Martin

I refer to the assessment for the HVO South Open Cut Coal Continuation Project (SSD-11826621). The Department has received final advice from Transport for NSW on the project and is requesting you provide further information in relation to the New England Highway / Lemington Road intersection.

In particular, whether the left turn offset arrangement suggested by TfNSW could be implemented at this intersection, or whether any other additional mitigation measures could be implemented to increase the safety of this intersection. Noting also, the project construction period would result in a reduction in the existing level of service at this intersection.

You are requested to provide the information, or notification that the information will not be provided, to the department by **Friday 24 May 2024**. If you cannot meet this deadline or do not intend to provide the additional information, please advise the Department via the NSW planning portal.

If you have any questions, please contact Joe Fittell on 02 4908 6896 or via email at Joe.Fittell@planning.nsw.gov.au.

Yours sincerely,

Joe Fittell
